

Focuses:

Balanced Budget

...

Renounce Treaty of Trianon

Trade deal with Germany

Reaffirm Territorial Claims

Industrial revitalization (Make sure you are researching concentrated 3, tools 3 and construction 2 when this focus finishes)

Reintegrate the Railroads

Support Domestic Industry

...

Boost Hungarian Aviation Industry

Support Urbanization

...

Other stuff

PP picks:

Workhorse

Fascist demagogue (this will get you enough facism just in time to renounce trianon)

Improved worker conditions

War economy (right after renounce trianon)

Naval reformer

Radio propaganda decision

-----Start of yugo war-----

Import allied propaganda films + attache to Japan

Total mobilization (Note: if your war support still falls just short or you forget to do this, then join Greece war and go total mob then)

-----After yugo war-----

Extensive conscription

Anti-democratic raids

War industrialist

Free trade

-----After danzig-----

Women in the workforce

Air combat training specialist

Research

Early game (1936-1937): tools 1+2, concentrated 1+2, construction 1+2, Electronic mechanical engineering, mechanical computing, radio. Juggle both concentrated.

Later: Hard rush tools 3 and concentrated 3. Industry bonuses apply on tools 4, tools 5 and concentrated 4. Rush engine 4 with freed up research slot.

1938-1839 free slots: research computing machine, improved computing machine, scout plane

Construction: (If italy does collab on denmark, do not collab denmark. Check this with your team!)

While on civ eco: do agency, start first collab on denmark (mid 36).

Construct 1 civ

Start second collab on denmark (mid 37)

Construct mils.

Capping denmark:

- As soon as danzig occurs, manually justify on Denmark, naval invade copenhagen with 1 division. (pick grand battleplan + tip of the spear army spirit to allow naval invasions)

Production:

- Early game: 2 mil on support eq, 4 mil on guns (needed for collabs!!)
- When italy gets fighter 2, license and put all mils on it (update license as italy gets better engines!)
- When owned engine 4 is researched (mid 41), produce own fighter 2. Before that, produce italian fighter 2 that has engine 4 on it.
- Request lend lease of 100 trains and 1000 trucks from germany or italy. (do not produce them unless germany and italy refuse to help, which they should not)

Bombing subs:

- Bomb subs while having fighters flying air superiority over the same airzone. Avoid bombing enemy surface ships.

Getting heavy tank 3 for your faction:

- Start researching heavy tank 2 in 1938 with your new 5th research slot.
- After Boost Hungarian Aviation Industry focus, go down army tree to "armor effort", apply 2.0 year ahead-of-time bonus onto heavy tank 3.
- You get heavy tank 3 around november 1940. Germany/spain needs to license it to make their tanks unpiercable for at3 infantry.

Doctrine:

- Army doctrine: GBP right side (go down to infiltration assault) + quick improvisation spirit + logistical focus spirit
- Navy doctrine: base strike down to massed strikes
- Air doctrine: operational integrity + centralized control spirit
