

Arkadelphia Public Schools
Nikki Thomas, Superintendent
Jimmy King, Director of Support Services

June 2025 Facilities Report

- Perritt and Old Goza demolition is mostly complete. All utilities have been shut off to those sites, and our insurance carrier has been notified.
- The state has approved partnership funding for a new high school at approximately \$19 million. Ms. Thomas has been meeting with Jason Holsclaw-financial advisor, Clayton Vaden-architect, and Charles Stein-facilities advisor, to prepare information for the board to begin making decisions on direction of the new project. Mr. Vaden will conduct a workshop with the board during a special meeting preceding the regular meeting.
- Once the lease agreement is approved, renovations will begin on the building to house our Ag program shop.
