Art Trek

Grades: 1st - 5th

Description: Discover the world through art! In this class, students will trek the globe to explore how art is created in different cultures. From traditional techniques to modern interpretations, young artists will experiment with a variety of materials and styles inspired by diverse regions. Through hands-on projects, they will learn about the history, meaning, and techniques behind art forms from different countries while developing their own creativity. Join us for a global trek of artistic expression!

Mixed Media

Grades: 1st - 3rd OR 4th - 6th

Please note this class will be divided into two different age brackets, (grades 1 to 3, and grades 4 to 6), to better accommodate the skill level of each age group.

Description: **Mixed Media** is a dynamic art class that encourages students to explore a variety of art materials and techniques. In this class, students will experiment with different

media—such as paint, pastels, clay, fabric, and more—while learning how to combine them creatively to produce unique, mixed-media artwork. The class promotes hands-on learning and fosters artistic expression, helping students develop their skills and discover their personal artistic styles. With each project, students will gain a deeper understanding of the endless possibilities that arise when different materials come together in the art-making process.

Pop-out Pop Art

Grades: 1st - 6th

Description: Get ready to bring art to life in ***Pop-Out Pop Art***. In this exciting 3D art class, students will explore sculpture, mixed media, and relief art inspired by famous Pop and Modern artists like Andy Warhol, Roy Lichtenstein, and Yayoi Kusama. Using materials like clay, cardboard, and bright colors, students will create bold, eye-catching masterpieces that *pop* off the page. Perfect for young artists who love color, creativity, and hands-on fun!

Health & Fitness classes are very active and held outside as often as possible. Please be sure to send your students with appropriate closed toed shoes and sunscreen. Thank you!

Core PE

Grades: 1st - 6th

Description: This is a general PE class that gives students the opportunity to participate in a sport, game, or activity. A class that combines fitness with playing, Core PE students will engage in team, partner, and individual activities in a competitive environment. The semester curriculum will be built around SPARK FIT lesson plans designed to increase physical activity in a variety of fun ways. Ideas for activities include tag, partner races, sports, obstacle courses and more. Get stronger and improve your fitness!

Games Galore!

Grades: 1st - 3rd OR 4th - 6th

Please note this class will be divided into two different age brackets, (grades 1 to 3, and grades 4 to 6), to better accommodate the skill level of each age group.

Farm Fresh Favorites

Grades: 1st - 3rd OR 4th - 6th

Please note this class will be divided into two different age brackets, (grades 1 to 3, and grades 4 to 6), to better accommodate the skill level of each age group.

Description - In this hands-on course, students will explore the delicious world of cooking with seasonal ingredients! Each week, students will learn about different fruits, vegetables, and other foods that are at their best during each season. Through fun and simple cooking projects, they'll discover how to create tasty and nutritious dishes that celebrate the flavors of the time of year. Students will gain practical skills in the kitchen, from basic knife skills and measuring to understanding how to follow recipes and experiment with new ingredients. They'll also learn about the importance of eating locally and seasonally, and how choosing fresh, in-season foods can support both their health and the environment. From vibrant spring salads to hearty fall soups, students will create a variety of dishes while developing a lifelong love for cooking and healthy eating. By the end of the semester, students will have a collection of delicious recipes and the confidence to continue cooking with seasonal ingredients at home!

International Fashions

Grades: 1st - 5th

Description: In this fun, new class, students will embark on a colorful journey around the world to explore the rich diversity of fashion from different cultures and regions. Students will learn about traditional clothing, modern fashion trends, and the ways in which fashion reflects the history, art, and values of various countries. Each week, we'll "travel" to a different country, discovering how local materials, climate, and culture influence what people wear. Students will get the chance to design their own international-inspired attire, experiment with colors, patterns, and textures, and create a mini fashion show to showcase their designs at the end of the semester. By the end of the course, students will have a broader appreciation for the global diversity of fashion and a deeper understanding of how clothing and accessories connect us to our heritage, environment, and identity. This course fosters creativity, cultural awareness, and an appreciation for the world's fashion heritage in a fun and interactive way!

Funtastic Fibers

Grades: 1st - 3rd OR 4th - 6th

Please note this class will be divided into two different age brackets, (grades 1 to 3, and grades 4 to 6), to better accommodate the skill level of each age group.

Description: In this class, students will explore the world of handwork through fun and creative projects like knitting, crochet, weaving & sewing. This hands-on class will teach basic skills in each craft, allowing students to create their own unique pieces while learning about patterns, textures, and design. Whether they're making a cozy scarf, a colorful crochet keychain, or a simple sewn project, students will discover the joy of turning threads and fabric into beautiful, functional works of art. Each week, students will focus on a new technique or project, starting with the basics and gradually building their skills. Along the way, they'll gain confidence in their ability to create something from scratch, while also developing patience, problem-solving, and fine motor skills. By the end of the semester, students will have completed a variety of handwork projects. This course is perfect for students who enjoy working with their hands and want to explore the art of making things by hand in a fun and supportive environment.

Shimsan Taekwondo Basic (White, Orange, Yellow)

Grades: Ranks White-Yellow

Description: This class is designed to allow students to study the art of Taekwondo in a positive learning environment that focuses on life skills such as respect and self control while learning the basics of Taekwondo. Each student will receive special instruction that will be appropriate to their skill/knowledge level. New students will begin by learning various techniques essential to the art of taekwondo. Ongoing students will continue to work toward belt advancements and expand on their leadership experience. Class goals include respect for self and others, teamwork, focus, self confidence, self-defense, fitness and a whole lot of fun! Mr. Nick Wolf is a 4th Degree Black belt in the National Martial Arts Alliance, and co-owns [Superior Martial Arts](#) in Conifer.

Shimsan Taekwondo Intermediate (Green +)

Grades: Ranks Green and Higher

Description: This class is designed for higher level students to continue studying the art of Taekwondo in a positive learning environment that focuses on life skills such as respect and self

HSC Middle School - Homeroom

Grades: 7th - 8th

Teachers: Ms. Rose, Ms. Kim, Mr. Ramsey

Description: Middle School mornings: 7th & 8th graders will begin their day in Homeroom, where students will gather with MS staff for important HSC news, announcements, and upcoming events. Then, they will break into small groups for student-driven, teacher-led block units offered throughout the semester. Our block-unit studies will include teamwork, meeting deadlines, presentations, research, critical thinking, and learning new forms of communication.

Block 1	Block 2	Block 3
Innovative Thinkers	Magic of Words	Production with Writing and Speaking
● Imaginative language ● Comic writing ● Storytelling ● Story elements ● Character development ● Research ● Computer skills ● Newspaper elements	● Speech & Debate ● Public speaking ● Communication skills ● Joke telling ● Story-telling ● Constructive Feedback ● Logical thinking ● Interview techniques	● Podcasts ● Marketing ● Blogs ● Vlogs ● Research ● HSC Newspaper

[Skip to Top](#)

[Middle School \(7th-8th Grade\)](#)

Throughout Homeroom, students will apply skills learned to produce our very first HSC Newspaper! Including advice columns, comics, Vlogs, and more, we are excited to allow this unique opportunity to our MS students to take on this fun challenge! This initiative will provide students with hands-on experience in journalism, communication, leadership, and teamwork—all while making an impact in their school and community.

Creative Composers

Grades: 6th-8th

Teacher: Ms. Kate kgrigsby@wwahomeschool.org

Description: In this class, students will have the opportunity to create their own songs, lyrics and music! We will explore different types of music and song forms as well as the “anatomy” of a song and how to “build” a song. We will utilize instruments, voices, and technology (Garage Band and Chrome Music Lab on school Ipads) to practice writing lyrics, beats, and melodies. We will also collaborate to create songs in small groups, as well as a whole class. We will also learn about some select composers and songwriters from various times in history and the present, and their different styles of music. The students in this class will have the option to perform their songs at Open House at the end of the semester! ***The material covered in this class is most suitable for students who already have some facility on an instrument such as piano, ukulele, percussion voice, etc. (but NOT required) and basic musical knowledge. Reading music is also helpful but is not required.**

Destination Imagination

Grades: 7th - 8th

Teachers: Ms. Bethany bburns@wwahomeschool.org Ms. Kim kross@wwahomeschool.org

Description: In Destination Imagination, students work collaboratively in teams to creatively solve open-ended, STEAM-focused challenges, developing critical thinking, problem-solving, and teamwork skills by designing and presenting innovative solutions to complex problems. The experience builds up to a thrilling regional competition where teams showcase their ideas and

[Skip to Top](#)

[Middle School \(7th-8th Grade\)](#)

celebrate their hard work. **This class will take up 2 class periods so students have enough time to solve the challenges. Their work will culminate in February/March with the competition, after which students will participate in other engaging STEAM activities.**

Digital Art & Photography +

Grades: 6th - 8th

Teacher: Mr. Wolf nwolf@wwahomeschool.org

Description: Learn how to view life through a new lens! In this class, students will learn how to take a dynamic photo, through digital and analog means. Students will be able to work with Polaroid and Digital cameras, learning the nuance of each of them. We will use the photos that are taken, and upload them to a computer, where we will learn to use photo-editing software to make fun additions to our pictures. Students will use these edited photos to create a “Photo Memory Book” where we can look back on all of the cool images they took and edited. Additionally, students will be introduced to the concepts of digital editing with software, learn to print their pictures on different materials, and much more!

Impact Makers

Grades: 7th - 8th

Teacher: Ms. Kim kross@wwahomeschool.org

Description: Introducing “Impact Makers”—Our New Middle School Student Council! Students will take the lead in organizing and executing meaningful community service and fundraising projects. As a member, students will have the opportunity to collaborate on planning, executing, and marketing for new events and field trips—all exclusively for middle school students! These activities can include hands-on community service trips, CU events, dinner and play, the MS dance, and much more. Join us for a semester full of action and impact at HSC, where students will make a difference while having fun!

[Skip to Top](#)

[Middle School \(7th-8th Grade\)](#)

International Towne

Grades: 6th - 8th

Teacher: Ms. Kim kross@wwahomeschool.org

Description: In International Towne, students learn about international business, trade, currency exchange, diplomacy, and responsible credit card use in a fun, hands-on way. This experience is different and engaging, and the way it motivates students to learn is truly incredible. The hands-on, interactive lessons and activities not only teach basic global economics, but also reinforce cultural awareness, geography, math, science, language arts, and civics. The culminating activity is a trip to the International Towne facility, where your students spend the day role-playing as consumers and producers in a global marketplace of 16 countries. It's an unforgettable experience that fosters lifelong learning!

*** International Towne may require additional time outside of HSC's scheduled school days***

*** Visit [International Towne](#) for more information***

Musical Theatre - Middle School Option

Grades: 6th - 8th

Teacher: Ms. Hayley hcotton@wwahomeschool.org

Fee: Tickets to attend the Musical will be available for purchase in the spring.

Description: Middle School students are welcome to join Musical Theatre as performers along with the rest of our student population to put on “**The Rockin’ Tale of Snow White**”. However, middle school students also have the option of applying to participate in the rehearsal process as one of the following **technical theatre positions**: Stage Manager or Dance Captain.

As **Stage Manager**, you will be responsible for taking notes during rehearsal on entrances, exits, and overall stage blocking. You will also help note what props, costumes, light cues, etc. are needed as we progress through the script. For our live performance you will continue your role as stage manager either running the show from the booth or backstage depending on what the production requires.

[Skip to Top](#)

[1st-3rd grade \(6-8 Years Old\)](#)

[6th grade \(11-12 Years Old\)](#)

[4th-5th grade \(9-11 Years Old\)](#)

[Middle School \(7th-8th Grade\)](#)

As **Dance Captain**, you will work closely with Miss Hayley to create and teach the choreography for the musical. You will occasionally need to work with Miss Hayley during her off-period to create the choreography as well as attend rehearsals to help teach and rehearse the dances.

If students are interested in either of these positions they will need to apply using the following google form: [Middle School Tech Position Application](#)

TEAM Sports

Grades: 6th - 8th

Teacher: Mr. Dan dteel@wwahomeschool.org

Description: If you're a team player, have a competitive attitude, practice good sportsmanship, and are looking for some fast paced sports, Team Sports is for you! This class is offered to older students to increase the competitive level of the sports played. A variety of sports will be played and vary from softball to ultimate frisbee, volleyball to basketball, and lacrosse to name a few. The objective of this class is to teach the importance of teamwork, communication, strategizing, and fair play. A class of older students is expected to have an excellent sportsmanship attitude, with students ready to learn, practice and compete in their favorite sports as well as students who are eager to learn or improve their skills in others. Older students are the leaders and role models of younger students at HSC and will be held to a higher expectation in this class.

WIN (What I Need)

Grades: 7th - 8th

Teacher: TBD

Description: WIN is a special class designed just for Middle School students—a time to focus on what you need most. Use this period to catch up on homework, work on school projects, or explore personal interests. MS staff will be available to provide support and guidance along the way. But WIN isn't just about studying—it's also a chance to dive into HSC's open-choice activities, including arts, crafts, technology, and other self-paced projects. Think of WIN as your personal study hall—a flexible time to learn, create, and stay on top of your goals!

HSC Choir

Grades: 1st - 6th

Description: Choir brings voices together in unison (and harmony)! This is a class for students of all skill levels to experience singing in an ensemble, while developing their unique voices. Each class begins with vocal warm-ups, which help students learn basic healthy singing techniques. We will sing traditional children's choir literature as well as a fun mix of Broadway and/or pop/ rock. Musicianship skills will also be introduced such as singing with dynamics, following conductor cues, counting beats/measures, phrasing and other expressive elements. Singing rounds and partner songs will help students develop listening and harmonic skills. Experience reading music is beneficial, but not required. Reading words is helpful, but also not required for enrolling in this class. Choir performs at the Open House held at the end of each semester.

[Middle School \(7th-8th Grade\)](#)

Ukulele 1

Grades: 1st - 6th

Description: This is an introductory class designed for students who have very little to no experience with ukulele. Students will begin to build many skills including: playing with good tone, strumming with a focus on rhythm, and beginning finger-picking. Students will learn basic musicianship skills such as counting beats/ measures, meter/ time signatures, and reading chord charts. Students will begin to master a minimum of 4 chords which can be used to accompany a wide variety of songs. Singing and playing will be highly encouraged! This class will perform as an ensemble at Open House at the end of the semester. ****Students are required to provide their own ukulele and bring it to class each week. ****

World Music

Grades: 1st - 6th

Description: In our World Music class, students will embark on an exciting journey through the rich tapestry of global musical traditions. This interactive class introduces young learners to a variety of cultures by exploring their unique sounds, instruments, melodies and rhythms. Each class focuses on a different country or region, allowing students to learn about its music, instruments, and cultural significance. Students will have the opportunity to play instruments, participate in group music-making, and even create their own musical pieces inspired by what they learn. As music and dance are often intertwined, students will engage in traditional dances, enhancing their understanding of the cultural context of the music. We will explore how music conveys stories and emotions, encouraging students to express themselves through creative songwriting and improvisation. Students will work together on group projects, fostering a sense of community and collaboration while sharing their musical experiences. By the end of the semester, students will have a deeper appreciation for the diversity of world music and its role in different cultures, while developing their listening, performing, and creative skills. Join us for a harmonious adventure around the globe!

Age specific classes are based on age as of October 1st, 2025

Musical Theatre

Grades: 1st - 8th

Fee: Tickets to attend the Musical will be available for purchase in the spring.

Description: HSC's DRAMA and MUSIC departments are joining forces to put on “**The Rockin’ Tale of Snow White**”! We will combine talents by incorporating dancing, singing, and acting into one larger than life musical production. Students will experience what a traditional rehearsal process is like in class before performing in a full production of their musical around the end of April/Beginning of May. This class is 100% performance-focused and students should be prepared to rehearse each day they come to class.

Requirements: This is a year-long class and will rely heavily on attendance. Please advise teachers of any planned absences ahead of time. Keep in mind that auditions are held the 3rd week of class, so it’s best to decide on this class by the 1st week. Students will be expected to work on lines, songs, and choreography outside of class.

Mystery Makers

Grades: 1st - 6th

Description: In Mystery Makers, students will work together to create their very own original mystery play! As a group, we'll brainstorm a mystery with unique characters and unexpected twists before turning those ideas into a script (with the help of Ms. Hayley). After our script is written, students will spend the rest of the semester rehearsing and developing their acting skills. On the final day of the semester, at our Open House celebration, students will share what they've been working on!

Puppets, Masks, and Mimes, oh my!

Grades: 1st - 6th

Description: In this class, students will learn about more specific acting situations: acting with masks, acting with puppets, and miming! Students will explore how to communicate emotion, character, and storyline while working in these specialized acting situations. Students will also get the chance to design and create their own masks and puppets with which they will perform in class. This class will not perform at Open House, however if students choose to have their performances filmed they will be shared with family.

Technical Theatre

Grades: 4th - 6th

Description: Are you interested in theatre, but don't want to be onstage? Join other students to explore the following technical elements of theatre: Set design, Costume design, Light design, Sound design, Props design, Marketing, and House Management. Students will learn what each technical element is, why it is important, and spend some time exploring and creating their own designs for each area. Students will also help prepare and run various school wide events scheduled during each semester. The biggest focus in this class is working on various projects needed for the Spring Musical. There are high expectations in this class for good behavior and a sense of responsibility when helping run our school wide events.

Kindergarten - Drama with Miss Hayley

In Drama with Miss Hayley, kindergarteners will work on being brave, working together, and expressing themselves creatively through acting-based exercises. We will use our three actor tools (voice, body, and imagination) every week as we explore different theatrical concepts such as pantomime, character acting, and story drama!

Chemistry For Kids

Grades: 1st - 6th

Teacher: Ms. Rose (email coming)

Description: In this introduction to chemistry course, young chemists will explore the different states of matter: solid, liquid, gas. They will experiment with how different substances are made, how they behave, and how they change when mixed together. From evaporation, oxidation, chemical reaction, and bubble investigations... our young chemists are sure to have some explosive experimentations!

Healthy Habits Club

Grades: 1st - 6th

Teacher: Ms. Shannon sgray@wwahomeschool.org

Join Healthy Habits Club, where self-care meets creativity, teamwork, and empathy! In this hands-on class, students will learn the importance of taking care of themselves and others,

[4th-5th grade \(9-11 Years Old\)](#)

[Middle School \(7th-8th Grade\)](#)

while building essential skills like empathy, communication, and collaboration. Each week, we'll focus on fun and relaxing self-care activities, from making soothing bath bombs and custom aprons to crafting personalized wellness kits and exploring simple home remedies.

Through teamwork and creative projects, students will discover how taking care of their mental and physical health can be both fun and empowering. By the end of the course, students will not only have a toolkit of homemade self-care products but will also understand how empathy and caring for others are key to a balanced and happy life.

Spotlight Scientists

Grades: 1st - 6th

Teacher: Ms. Shannon sgray@wwahomeschool.org

Description: Spotlight Scientists is an engaging and dynamic course designed to introduce students to the brilliant minds who have shaped the world of science. Students will dive into the life and discoveries of different scientists who have paved the way: Albert Einstein, Isaac Newton, Marie Curie, to name a few. Students will explore physics, chemistry, biology, and beyond through storytelling, hands-on activities, and discussions. Students will explore physics, chemistry, biology, and more; all the while gaining an appreciation for the scientific process and the importance of curiosity, persistence, and creativity in shaping the world around us.

Up in the Air

Grades: 1st - 6th

Teachers: Ms. Bethany bburns@wwahomeschool.org

Description: Welcome to the soaring skies of Up in the Air! In this class, budding aviators will take flight on a thrilling exploration of aerodynamics and engineering. Students will be challenged to design and build a variety of aircraft, from rockets to helicopters and drones, unlocking the secrets of successful flight. Through hands-on experiments and exciting challenges, young aviators will learn about lift, thrust, and control, fostering a deep understanding of the principles that govern flight. Get ready for an exhilarating class where imagination takes flight, and students become the engineers of their own airborne creations!

All About Australia

Grades: 1st - 6th

Teacher: Ms. Kelly kmathews@wwahomeschool.org

Description: Join us on a journey to the land down under! Students will learn about the history of Australia and its important cultural aspects including food, sports, games, music, art and more. We will also take a look at the unique plant and animal life in Australia and briefly learn about other countries that make up the region of Oceania. Students will learn through a variety of ways, including crafts, games, video clips, stories and other hands-on activities. There will be 4 food days during the semester. We will make our best effort to accommodate allergies and dietary restrictions.

Leadership

Grades: 4th - 6th

Teacher: Ms. Kelly kmathews@wwahomeschool.org

[Skip to Top](#)

[6th grade \(11-12 Years Old\)](#)

[4th-5th grade \(9-11 Years Old\)](#)

[Middle School \(7th-8th Grade\)](#)

Description: In leadership, students will take the lead in our school's community. They will work together on character traits and virtues through a variety of learning experiences, which will help them learn what it takes to be a positive leader. Students in this class provide school-wide community building activities such as participating in Kinder Buddies, running the Student Store and activities to include all HSC students. Leadership class also helps with many school events such as Day Without Hate activities, the School Musical, Field Trips and more. Lastly, Leadership students help in a variety of community fundraisers where a need is seen. Leadership is an excellent class for young adults that want to be leaders of the school and community, and to help HSC be the best we can be. **The material in this class is most suitable for students ages 9 years and older.**

Los Lugares!

Grades: 1st - 6th

Teacher: Mr. Dan dteel@wwahomeschool.org

Description: This will be an entry level Spanish class focusing on vocabulary related to specific places around our city. Objects in a grocery store, gas station, hospital, and an airport to name a few, are common places where one can be introduced to the many cognates between English and Spanish. Seeing the similarities between many words will make it easier to expand the students' knowledge and confidence of the Spanish language.

HSC Tech Tour

(Note - this class should be taken as a prerequisite (or taken concurrently) for ALL STEAM CLASSES, unless approved by the teacher. Only needs to be taken once, but CAN be taken more than once if interested in doing the tour of our tech again!

Grades: 1st - 6th

Teacher: Mr. Ramsey rbernard@wwahomeschool.org

Description: In this class, students will have the opportunity to learn the basics of technology through fun, engaging lessons. Basic skills will include logging into a computer, using a mouse, finding letters on the keyboard, and much more. After students have become comfortable with these basic skills, they will then be introduced to a variety of technology applications such as Sublimation, 3D Designing, a few robots, and various differing software using the laptops and

[Middle School \(7th-8th Grade\)](#)

iPads. They will explore new interests on this exciting “tour” of technology! **This class is a great class for introductions to new technology students have never used before! It will also prepare our students for other HSC classes!**

Digital Art and Photography

Prerequisite: Must have taken Tech Tour and have a base understanding of working with computers and iPads.

Grades: 1st - 5th

Teacher: Mr. Wolf nwolf@wwahomeschool.org

Description: Learn how to view life through a new lens! In this class, students will learn how to take a dynamic photo, through digital and analog means. Students will be able to work with Polaroid and Digital cameras, learning the nuance of each of them. We will use the photos that are taken, and upload them to a computer, where we will learn to use photo-editing software to make fun additions to our pictures. Students will use these edited photos to create a “Photo Memory Book” where we can look back on all of the cool images they took and edited. Additionally, students will be introduced to the concepts of digital editing with software, learn to print their pictures on different materials, and much more!

LEGO Story Creators ****Students must take the HSC Tech Tour concurrently or previously as a prerequisite to take this course.****

Grades: 1st - 3rd OR 4th - 6th

Please note this class will be divided into two different age brackets, (grades 1 to 3, and grades 4 to 6), to better accommodate the skill level of each age group.

Teachers: Mr. Ramsey rbernard@wwahomeschool.org

Description: In this class students will explore the creative side of developing stories! We will start by listening to read-alouds and talking about the elements of a good story. Students will participate in activities such as Story Starter Legos, writing prompts, and acting out stories in order to fine tune their skills. At the end of the semester students will choose to either write and illustrate their own book using Book Creator or tell their own story using Legos and stop

motion animation! While mechanics will be covered, the emphasis will be on creativity - so the class is a good fit for all ages and writing abilities.

Minecraft Mods ***Students must take the HSC Tech Tour concurrently or previously as a prerequisite to take this course.***

Grades: 1st - 6th

Teacher: Mr. Wolf nwolf@wwahomeschool.org

Description: In Minecraft Mods, students will take their love for the popular game Minecraft, and use it in a constructive manner! They will focus on their planning and design skills, mapping out large-scale structures and working as a team to accomplish the builds. Lesson topics include learning about redstone circuitry and machines, the use of command blocks to modify their world, and learning how to create their very own basic modifications to the dynamic Minecraft world. By the end of the semester, students will have worked together to create a thriving environment full of their ideas and builds!

Newscast

Grades: 1st - 6th

Teacher: Ms. Kelly kmathews@wwahomeschool.org

Description: Hello, and welcome to the HSC Newscast! This is one of our long time favorite classes here at HSC and it is now open to all ages! Students will plan, record and edit the daily newscast that shows each week at dismissal. Jobs include roles that are on camera as well as behind the scenes. The ability to read is helpful but not required. Both sections of this class are open to all ages but students under the age of 9 will be capped at 4 per class. *Please note- Newscast is shown at the end of every school day and is linked in the internal, password protected HSC Student Page.*

Pixels to Production: 3D Printing and Sublimation

Prerequisite: Must have taken Tech Tour and have a base understanding of working with computers.

Grades: 1st - 6th

Teacher: Mr. Wolf nwolf@wwahomeschool.org

Description: Learn how to craft through the power of technology in this class! We will be learning how to design using digital design tools such as Canva and TinkerCAD. Then, we'll use these designs to learn the art of sublimation and 3D printing. Students will create keychains, pencil bags, mouse pads, and other fun crafts that can be taken home for themselves or as gifts for loved ones! They will also create several 3D-printed creations that will be able to be taken home and proudly displayed.

STEAMwarts Express ***Students must take the HSC Tech Tour concurrently or previously as a prerequisite to take this course.***

Grades: 1st - 6th

Teachers: Ms. Bethany bburns@wwahomeschool.org

Description: Step into the enchanting world of Harry Potter STEAM! In this class, students will merge the magic of Hogwarts with science, technology, engineering, art, and mathematics. From potion-making precision to the intricate art of wand-making to exploring magical creature biology, students will embark on hands-on STEM adventures inspired by the wizarding world. Join us for a journey where innovation meets imagination, and the joy of learning takes flight!
