

Hey sweetheart, I'm really hoping this isn't your first time with me, I wouldn't want you to think this is how I am... all the time
I'm going to be rough with you
You will be bound deep into trance, where I will play with you in a world of my creation
A world where you are brutally invaded
Stretched...
Raped- over and over and over...
Where women with huge (strapped on)cocks take power over you
Use and abuse you until you are a mewling worn out THING panting on the floor... mmmm it's going to be so much fun
So get ready sweetheart
Make sure you won't be disturbed, dim or cut the lights
Get comfortable and get naked
Oh, and you should already have something big in your ass, vibrations are not necessary... but they are a plus
Now
Wiggle around a bit
Take notice of that nice big, THICK invader in your asshole
Close your eyes slut
I know you're excited
I know that makes it hard to relax
softer voice
But I need you to relax anyways
Calm your breathing, I won't give you an exact count, but I want you to make your own
Breathe in nice and deep and count in your mind
Until you feel full
Hold it....
And then slowly release it, counting it out slowly in your mind as you do
It could be a 3 count, a 4 count, a five count
That's not important
What's important is that you find the best rhythm for you, and focus on breathing deep and even
And with each breath, feel yourself relaxing more and more
With each breath, focus on my voice
Feel my words descending over your mind like a hazy cloud of smoke
You breathe in, and I am there, filling you
You breathe out, and you feel your willpower slipping away
With every breath you take, with every word I say, you find it easier and easier to imagine yourself falling under my spell
Falling into an almost sleepy state of mind...
That's good pet
That's what both of us want
Breathe deeply and relax...
Good boy/pet
Imagine yourself hooded

Taken by surprise
On a dark and moonless night while walking outside just being taken before you even notice
anyone is there
A thick black hood thrown over your head
Your arms quickly grabbed by several unseen assailants
Your heartbeat picking up, a brief attempt at struggle before you are overwhelmed
Overpowered
Let my voice over power your mind in such a way
Knowing that the more you struggle...
The weaker you will feel after you are overcome
Use up any excess thinking and energy now
Thrash in the sheets if you need to, feeling the counterpart you thrashing in the streets
You start out so strong...
And yet
In a moment I am going to say your trigger
As I do, I want you to feel that thick black hood muffling everything around you, and the heat of
my breathe on your neck as I lean in
As I prepare snap my fingers and whisper the word that has been pre-installed in your brain
That you are conditioned to submit to
Helpless to resist
Fight while you can
Struggle and squirm and move and shake...
You may even feel excited at this thought
But it is nothing
You are nothing
Nothing but a toy for my amusement as hands hold you captive
And...
Drop *snap*
Your resistance melts away
Your mind melts away
Docile now, you find yourself dragged a short distance, lifted and shoved into the trunk of a car
My sweet boy
We're going to go for a ride
The hood is pulled off, and the last thing you see before the trunk is closed is my face
My eyes
Blue as the depths of a whirlpool in the sea, deep and endless and your hazy drugged and
drunken mind which is tumbling grasps onto them
You are drawn into the illusion of a life raft... you would cling to anything presented to you right
now
A wicked smile spreads on my face
What resistance you posses is small and fleeting and as my hand raises you know soon even
that token will be stripped away
Drop *snap*
The trunk lid closes, you fall into darkness and a blank mind

...

The ride is short and yet it stretches endlessly from within your confined space, confined mind
You relax into the rumble and vibration of the engine underneath, you feel each bump as a
thudding impact of how helpless you are

You can't do anything right now

You may as well relax

Your mind is drugged with the chemicals your brain is producing right now, my voice, my control,
sends waves of pleasure and submissive desire flooding through you

It is so easy to simply give in

You can't see, you can only feel and hear and it feels like the roads we take are winding

Picture it in your head, a map of an unknown place, a blank map, the only piece of marking is
the path the car is taking

See it circling, spiraling until you are so completely lost

Just spinning and spiraling

Spiraling and spinning

Deeper and deeper into an unknown future

Another turn...

The buzzing of cars workings leaves you feeling so hazy

So sleepy

You can't do anything, there is no shame in simply resigning to that which you have no control
over

There is nothing wrong with letting more and more of your thoughts and mind go

To sleep

Mmmm

...

The car stops so gently you barely notice it's stopped

Your mind is so hazy that you have no grasp on the time that has passed

With fogged eyes attached to a fogged brain, there is no resistance in you as the lid lifts up and
complete darkness is replaced with the bright light of flashlights, stealing away your vision as
you blink into them as you are temporarily blinded

You are quickly grabbed and dragged out, placed standing on a dirt road, no one and nothing
around

The voices of the women are unconcerned as loudly they speak of your predicament

G1 - Mmmm let's stand him up shall we?

G2 - yeah - mmmm Hand me those straps

You can't see the women, but they surround you

Rubber straps are wrapped around your arms, pulling them back behind you

Your chest pokes out as the straps are tightened

More.. and more

Another set of straps added, and another

One over your biceps, one at your wrists, one in the middle binding you tight

Your eyes starting to adjust, you see a beautiful woman with large full breasts coming towards you with a big black gag in her hands, a 3 inch dildo sticking from a rubber base that will cover half your face

G2 "Out here no one can hear you scream, so if you need to, get one out real quick- see while some of my friends enjoy your screams, I personally prefer to take that agency away from you When I play with you I don't want a game of give and take, where I react to your sounds... No, I want to bind you so tight you can't even move a muscle

I want to gag you so deep I can't hear a peep

I'll blindfold you so even your eyes are incapable of begging, and then I will do whatever I want to you- both of us knowing that you are robbed of protesting in even the smallest of ways. It's so fucking hot to see your sweating, your shaking and shivering, your tears slowly leaking down, the only sign of what's happening, your suffering having no outlet, you can only take it...

If there's an itch you can't scratch it, can't even beg me to, no hope of mercy when you aren't even capable of signalling you need it in any way!

Mmmm *kiss*

We're going to have so much fun with you"

Your eyes a bit wild, she grabs your face and digs her pointed black nails into your cheeks, squeezing where your upper and lower jaw meet until your mouth is forced open and the thick, black, rubber half-cock is shoved into your mouth.

No mercy

No escape

Her green eyes bore into yours as she playfully withdraws it a bit, before slamming it back in In and out

In and out...

Your mouth is being fucked and there is nothing you can do except take it

Take it

You hear her whispering it

"Take it, take it"

The other women gathering around, hands holding you, running over you

They are all saying it now

It's almost a chant, if you can remember nothing else from this night, you WILL remember this

"Take it" (chanting in background)

"Take it"

Take it- those words evoke helplessness

Everytime you hear those words, you are reminded, you are forced into this headset, this space of being so very helpless

Where you can only take it

Take whatever is done to you

Accept it as anything they want is taken from you

Take it

Everytime you hear it you feel more and more helpless

Helpless to resist as the gag is fucked one last time in and out of your mouth before being plunged back in, all the way, held there while a thick rubber strap on each side is pulled together in the back of your head and tightened

The lower bit of your face is completely covered in almost an oval of rubber
Your mouth full
Your arms bound
The woman with green eyes smiles as she expertly adjusts the straps
She takes your chin in her hand and moves your face side to side so she can look at you from all angles
Mmmm
G2 "Very nice"
The other women agree with her
When your chin is released there is a moment quiet enough for you to look around, to see your captors
Your eyes not fully recovered, the lights all always pointing on you, you can't make out details- but you see beautiful shapes in the nighttime mist
Curves fill your vision before your attention is grabbed by hands grabbing onto your shirt, and the glint of a knife in the light
The blue eyed beauty winks at you, noticing your preoccupation with the sharp edge that she dangles in front of you, holding it close to your face, than far away so you can watch it move, side to side
Your eyes following
Hypnotized
Back and forth
Left to right
Right to left
Fear building
The dull side of the blade touches the side of your neck, before traveling slowly to your collar bone, to your throat... where you suddenly take intense stock of your breathing
Instinctually trying to draw smaller breaths, if any at all...
G1 -
"mmmmm"
"You're going to be a good boy/pet, aren't you?"
"Stay nice and still for me... I wouldn't want to make a mistake..."
You feel another woman's hand on the back of your scalp, rubbing and grabbing the hair at the nape of your neck in her fist, squeezing so perfectly that your body tingles....
Holding you still as the woman in front cuts your shirt away
The knife trails along your skin as your clothing rips apart
She stops halfway down your chest, as with a grin she pauses until you look up into her eyes and
ripping sound
She rips the shirt right apart
She hands the knife to a woman on your side, you feel the rest of your clothing being cut away from you as in front you you, long manicured nails explore across your chest
In some places she stops, and you feel a sharp pain as her fingernails dig in
Groping you cruelly
Her eyes never leave yours as she touches you

You can see the pleasure in hers as you express the pain in yours
Excited, her tongue runs over her lips as her fingers squeeze against your nipples
You barely notice as the rest of your clothing falls ruined to the ground, it's the sudden cold that
brings your mind back away for a moment to understand your situation
It's the middle of the night
You don't know where you are, but you know it must be deep in the woods where no one could
hear you, even if you screamed at the top of your lungs
3 women seemingly as sadistic as they are beautiful, have you completely at their mercy
They've already committed several felonies
You've seen their faces
A part of you already knows there is no coming back to the world you knew before
You are stripped naked
All that is on your body is binding rubber straps, and a black rubber gag holding in the dildo
filling your mouth
Helpless
They can do anything they want to you
And there is nothing
Nothing.
That you can do about it
G3 "Poor little pet"
You feel the third woman's breasts pressing against your arms behind your back
Her tongue is on your ears, dipping in, pulling out, playing and teasing as her breath tickles on
the nape of your neck
More hands are running over your body
The three women taking many liberties, squeezing yours ass, rubbing into your muscles
Hands moving over in front to stroke
To tease...
To move away laughing
G3
"I felt that...
Mmmm you like my arms around you?
Touching you... there?
You.. umm..
Well
fake nice
You don't seem to be taking your situation very seriously
I could almost think... you enjoy this
From what I am feeling I think you might be a...
Mmmm, what's the word I am looking for?
G2 "Whore?"
G1 "Pervert!"
G2 "Needy Cunt"
G3 "Slut"
Yeah... slut

Mmmm and you know what happens to sluts, don't you?

G1 "They get fucked"

G2 "Fucked really hard"

The woman holding you from behind grabs you, spinning you around and bringing you to the front of the car

She pushes you forward- bending you over the hood

Your cheek presses against the metal, still warm from the engine

A soft yet firm hand clutched in your hair, another on your neck, holding you in place as a foot kicks the side of your legs, forcing them apart.

Long silky hair rubs against your thigh as cuffs are placed on your ankles, and a bar is placed between them, clipping to each cuff, it spreads you wider

Wider

You are completely exposed

You cock/nether bits free for the air to come in and whistle past, a cold you can't close your legs and hide from

You can't hide anything from me

Anything from them

Deeper you fall into a submissive haze, you know you can't escape

There is no escape

You are here to accept

To take it

whispering take it

Take it as someone spits on the top crack of your ass

Take it as a finger comes in, wet from their spit as it circles around the rim of your puckered star

Take it as slowly you feel it shoving inside of you

Take it as you can't even cry out at the intrusion, the invasion

whispering take it

In and out, in and out...

Before being replaced with something bigger

Much bigger

A big rubber plug, shaped like an egg, wires trailing out the flared end

It's rubber, but it has almost no give as it is slowly pushed inside your hole

G3 "Take it"

"That's it you little slut, relax your ass and Take it"

The bits of thought left to you latch onto the words

"Take it"

In the helplessness there is a peacefulness, an acknowledgement you won't resist, you can't resist, it's peaceful, almost meditative, a calm drops over you to mix with the excitement...

whispering in ear

And I do know about the excitement, what does it say about you that I don't even need to explicitly put that within this trigger for you?

It's innately there, it could never NOT be there... you slut

(slowly transition voice from narrator to G3)

My dirty pet

You were meant for this

This is the true reason you are helpless, not because you are bound

But because you are a slut

My slut

Our slut

Your slutty nature shuts down your process of thinking, KNOWING what could happen, part of you HOPING...

Even as the rest of you trembles and quivers and cries

You want it, you dirty bitch

Now take it

Take it all the way in

(back to narrative)

What started as a small intrusion becomes a painful and unyielding pressure, as mercilessly you are FORCED to take it

Take it as the rubber squeaks against your skin

Take it as everytime you think you can't possibly be stretched anymore, the 4 inch behemoth being shoved inside of you proves you horribly wrong

Take it as finally it slides all the way through, the last bit in a bit of a fast *pop* as your hole seems to gratefully gulp the rest of the buttplug up so it can at last relax from being so cruelly stretched

Take it as there is now inside you an ever intruding fullness

Take it as the bar between your legs is unhooked, and you are marched forward

In all the intensity you hadn't seen it before, but there is a van, and you are pushed roughly inside of it, filled up by dense black rubber

The back of the van is specially modded, with eye hooks at the head rest, the sides, and by the floormat

Right in the middle of two outer leather seats, there is a large hollow screw sticking out

The cushion behind is modeled after a police car, with a dip that is a perfect fit for your bound arms

You are forced to awkwardly squat as the wires that look like a tiny tail poking out of your ass are lowered through the hole in what's is being made clear as some sort of mounting device, that corresponds with the plug in your ass

Exposed wires touch the metal inside of the screw, creating a connection that sends a quick jolt of electricity inside of you

The screw is lined up with matching threads in a metal casement that is the inner core of the black rubber plug

You hadn't noticed it before while it was being brutally fit inside you, but there are metal strips on each side of the plug, and suddenly you are very aware of them

A button is pressed and the screw starts to spin as you are slowly lowered down

All three inches of the quarter thick metal, screwed inside the butt plug, efficiently securing you to your seat by industrial strength rubber shoved up your ass

G2 *laughing*

"Perfect"

G1 "No getting away now"

There is a woman on each side of you, the doors are closing, the van starts up...

(G3 is driver)

The metal core of the plug in your ass must be directly touching the main body of the van, because as it moves you feel the strong rumbling vibrations deep inside of you

Intense...

But you can't move away

You can only take it

Take it as more straps are added to your chest, as your ankle cuffs are clipped and locked in a spread open position

A mockery of a seatbelt, black rubber studded with diamond shaped metal studs is placed across you, clicked and locked into place

Take it as more and more rubber is stretched and tightened over your body, a web of bondage that leaves your body with less and less capability to move in any way

You can't be anything BUT compliant right now

Even the most alpha person on the planet would feel weak and helpless in a situation like this

It's ok that you take it

You have to take it, you have no choice

To even think of fighting makes your body tense, your ass tighten around it's horribly dense intruder

Fighting causes *pain*

It's so much easier to just accept your fate and relax as the van putters along, feeling every single crack and bump in the road inside you to your core

It hurts

It's so big

You're so full

And yet...

The vibrations in their intensity start to seem to build a rhythm within you

Painful yes- but...

Also good

G2 Oh look... I think it's getting excited

laughing

You can feel their laughter as almost blows to your pride, shame filling you at your reaction

Heat blooms within you, a flush covers your skin, and the more embarrassed you become, the more they laugh

The more they laugh the deeper the shame sinks within you until you are squirming what miniscule bit your shiny latex bonds allow you

Squirming only sinks the plus deeper inside your ass, it's not even possible, it's wedged in with such a small tapered stem between the massive bulbas rubber head, and the flared out base

You know you are truly stuck, because getting this... THING out of you without help would be impossible, even if you were not fully bound up

All you can do

Is

Take it

Take it as you see G1 maliciously smile as in front of you, her long painted nails light caress a big yellow button attached to the underside of the roof of the van
She strokes it, as anticipation builds within you
With a slow, dramatically drawn out wink, she presses the big yellow button..

zap

The shock floods through your entire body
A burning sensation stabbing into you
She presses the button again *zap*
leaning in towards you, her lips tickling what bit of ear shows underneath all your bondage
G1 "Don't you just love that sound"

zap as she presses the button again

That... ZAP *zap*

"I connected the whole system myself"

"You see this button is connected to the vans electronics- and since i do love that sound so much, I recorded it so every time I press the button you will hear that ZAP

zap

"You will hear it while a pulse of electric current goes running from the vans battery..."

"Mmmmm along a path under the floor mats..."

Her finger lightly trails along the floor to show you the unseen wires path

"It moves up into the seat"

Her finger rises higher, coming up and in between your thighs now, homing in closer and closer to the point between

"And right... into... here."

Her fingers push beneath you, squeezing briefly next to your stretched out hole for a quick stroke before pulling back

"And of course, from there into your ass!"

She finishes with a flourish, smacking your inner thigh and pressing the button once more

zap

The jolt of electricity hits you again, all you feel is a quick sudden jolt of fire tingling through you as she straddles your rubber bound body and moves her lips to nibble on your other ear

"And everytime you hear that ZAP" *zap*

"You will feel electricity shooting into you through your tight little fuckhole"

She's right- they must have started you on a weaker setting at first, but everytime you hear that zap, you feel it

Deep penetrating coursing electric JOLTS inside you

So so deep

Each zap seems to increase it's intensity, and whenever she holds down the button, you hear the prolonged singing of the bottled lightning feeling as if it is pinching and tickling you inside

You feel it

zap

G2 "There's nothing you can do about it"

(mocking voice)

"You can't scream, or shout, express to us how much it hurts because surely we don't know, if we knew we wouldn't press it so much and- *zap* *laughter*"

Your body writhes under their torture, the only visible signs of your torment is your eyes, so wild and rolling madly in all directions, as if something could help you, save you, free you *zap*
ahhhh

There is no escape

The acrid smell of the rubber all around you mixes with a sweet perfume that comes from one of your captors

It wafts around you, you are sinking in your mind, even deeper

Your mind just wants to protect you

To retreat

To surrender

To submit

You are breaking and they've barely even started playing with you

--- F4M Futa bit---

----F4F Pegged bit---

-F4M Pegging version bit-

G2 "Mmmmm I can't take it... I need some relief- "

G1 "oh of course!"

movement sounds

As the redhead above you moves off, a gorgeous tanned woman with amazing green eyes and pinned up blond hair climbs on top of you

Her hand comes down to caress your cock, which is shamefully hard as the vibrations oscillating inside of you cause pleasure to mix with the ache of being so utterly filled up and plugged - and you just can't help it

She is wearing a short skirt, and thigh high shiny red latex boots, you hear the squeaking of her latex rubbing against the straps hold you down as her leg goes over and she settles comfortably on top of you

You can't do anything but take it, as her lithe skilled fingers play across your cock, gently squeezing and teasing while the other woman's hands roam over your body, pinching and groping, and every so often...

zap

Again the pain jolts through you, and you unthinkingly thrust up... it's a marginal amount, you are so tightly strapped down- but the centimeter of space your cock moved up is enough to let you know the blond woman isn't wearing any panties

Despite the discomfort, the shame, the fear, the pain...

Your cock hardens at that bare taste of her pussy on your tip, just the barest brush against her bush, the wetness between her thighs...

She takes sharp, deep breath in, you can see the arousal written all across her face, the sadist desire and delight

G2 "You know what you are right now?"

"You are just a rubber dildo to be fucked, a plaything, an amusing toy with buttons..." *zap*

With that her hips come down and your cock slips easily inside of her, her pussy is warm and welcoming and wet

"Mmmmmmmmm"

She sighs in pleasure, her eyelids fluttering as her eyes roll up a bit in pleasure, she bites her lip and starts to thrust on top you

"Mmmmmm"

"Fuck"

"Since you seem to be enjoying this as much as I do- know that you'd better not cum before I do, or I'll duct tape down the fucking button and leave you to fry from your pretty little ass"

sex and rubber noises

"Unnnnnhhhhh mmm.... Don't you dare look away from me, I want you looking me in the eyes while I rape you. I want to see every single tear that threatens at the corner of your eyes.... I want to kiss and lick them away..."

kiss and lick

Mmmm so salty, you taste like a slut on the edge, about to break..."

G3 from drivers seat - "Oh don't break him yet! Not until we get there and I can play too!"

G2 - "Don't worry, I'm being gentle- mostly"

G1 laughing - "You, gentle? That's funny. Mmm does that mean I get to be the rough one?"

With that the redhead grabs one of your nipples, and gives it a sharp tug and twist as she raises her hand and presses the yellow button

zap

Crying out, your eyes turn towards her, resulting in a slap across your face and another hit of the button

G2 pissed - "I told you. Look at me. When. I. Rape. You."

With deep angry thrusts, the blonde takes your attention back her hips gyrating over your cock You can't help but moan around the gag in your mouth

G1 leaning in while G2 is moaning - "You slut. I heard that. Is it even really rape if you enjoy it this much? Filthy pig, just like all men, can't help but give in to your primal urges, can't help but be helplessly taken over by instinctual and uncontrollable urges..."

"Weak"

"You are so fucking weak.... But it feels good doesn't it? I can tell it does for her. Mmmm I can't wait to have my turn, with that nice thick plug up your ass, it's like your body is connected to the vehicle, the vibrations of the car I can feel are nothing to the vibrations you can feel... and she can feel them, through your cock. You are a vibrating dildo right now honey *laughing*

I bet you've never given a woman as much pleasure before as you are right now, your cock vibrating from the road, your body bound down but your hips able to twitch *zap* and jerk *zap* just enough so you feel alive

Fuck I love it, just the way you are practically mummified under all those rubber straps, not much skin showing, half your face covered and gagged and ohhhh...."

While the blond fucks herself up and down on your cock, your redheaded tormenter starts to rub her pussy, moaning and overcome with lust

"You are so fucking sexy right now"

"oh and from the twists I feel in the road, we are coming up on some bumpy gravel soon..."

G2 - "mmmmm oh I can't wait... ummmmm ohhh" *more sex noises*

Pleasure is bursting through you, deep sexual arousal coursing and oh it feels so good...

Mmmm knowing no matter how good it feels, you are not allowed to cum until she does

Knowing you can't makes you want it more

You are such an easy bitch to fuck with

You know it's true

You love it

Mmmm you love how it feels to be plugged, bound up, strapped down by layers of inescapable rubber against your will

Taken and raped, teased and tortured and yet your cock is so hard, your cock feels so good buried in her silky slick cunt

Vibrations a continuous stimulation against your prostate, vibrations that seem to sensuously overpower your ability to think as you sink into the sensations covering your body, the irresistible sexual pleasure rising inside of you

The arousal and need that builds and builds until your cock is swelling with it

It's so hard to hold back from cumming when your will power has already been forcefully ripped away and torn to shreds

Your teeth clench against the fake cock in your mouth, your eyes start to roll back in your head before you remember and snap them back to those lovely green orbs, fogged up now with pleasure, her pointed nails are digging into your shoulders as she arches her back in orgasmic bliss, her pussy CLENCHing, squeezing your cock in a tight vise that is almost too much but oh! Fuck it feels so good

You can only take it, as she takes her pleasure from you, cumming around your cock as her thrusts reach a fever pitch and with one last thrust...

She collapses on top of you, her slight frame a pleasant weight on top of you

Your breathing is still ragged, and you are so close to the edge- you were a good boy and held back from cumming but now you suffer

As your cock twitches helplessly inside her pussy, feeling so good but there just isn't enough stimulation now that she has stopped thrusting, the vibrations of the plug in your ass is almost enough to take you over the edge but- not enough

It's not enough

You are left panting around the rubber stuffing your mouth, chest heaving, eyes begging for your rape to continue just long enough... begging to be able to move just the smallest bit, it's all you need, just the tiniest, smallest bit more stimulation and you could cum

You need it

Oh so badly...

G1 - "Ohhhh poor slut. I don't think he got to cum. He looks like he really wants to though"

G3 - "Too bad. We're here."

The van comes to a stop, right before the vibrations can send you over the edge...

They just stop

Phantom vibrations seem to still tingle along your nerves, but... it's not enough.

The blond pulls her pussy slowly off your cock, leaving your tip glistening with her juices, red and swollen with need..

---End variations----

Your need is ignored as the women start unstrapping your body

The strong rubber smell becomes prevalent as bit by bit your naked body is uncovered and set free

Until all that is left is your arms bound behind you, the gag...

And the enormous and DENSE rubber plug filling your ass and holding you tight to the seat

G3 "You girls go ahead and set up, I'll see to bringing the new toy in"

G2 "ok!"

G1 "Yup"

G3 leaning in closer now - "mmmm it's about time I get a turn to play with you"

She smiles

Her eyes are beautiful

Almost a slate grey...

Your mind is grasping at wisps of thought now, your only real thought is of how incredibly horny you are, how much you burst with need and hope that she will fulfil your desires and MAKE you cum

G3 whispering in- "But I'm not that nice sweetie. My biggest kink is edging.... Teasing and denying...

But how fucked up is that... you want to be raped...

You would happily take anything I were to do to you right now, just to have an orgasm, a release
Mmmm you know what that means?

This is going to be even more fun

Remember your triggers slut

Feel them reinforce inside of you

When I say "Drop" you drop into trance, of course, I don't want you in just any trance, I want you in this one, in this world with you bound in rubber and completely at my control

So feel as these next words sink into you

A new phrase to bring you right back, right here, already horny and excited and wanting so so much for more...

"Drop, My Rubber Plugged Slut"

laughing

Of course, you will feel all those things when I wake you up as well

Such a shame there might not be any immediate relief

Knowing that everytime you drop into my power, you go deeper than before

Deeper...

More desperate

Come back when you hear me say "Drop, My Rubber Plugged Slut"

laughing

But right now you have to wake up

Desperate and needy, knowing really

Just what a slut you are

1 reality is so cruel to you

2 and yet here it is

3 like a splash to the face allowing thought and concentration

4 freedom from your bondage, you can move

5 wake up slut

Mmmm oh my...

To Be continued....

(idle thoughts: should I give everyone names, or keep nameless....

(this would be a good one to try adding one of those vibrator/electro appy thingies too)

G2 - Black pointy nails, green eyes, blond hair

G1 - blue eyes, red hair

G3 slate grey eyes
