

History of MBGNA Accessibility Efforts

Year	Effort
2017 - 2018	Completed the B2B recreation trail with seven sponsors to connect the botanical gardens to all campuses—several features such as accessible bridges and benches along the trails. Launched a new website with multiple changes such as, screened for color blindness and text size adjustments, and options to translate pages to various languages
2016 - 2017	Installed an accessible ramp to connect the West Lobby, Staff Hallway, and Front Lobby to address barriers to using the inside of the building.
2013	Approval of installing a ramp in the front hallway
2012	Sam Graham Tree Trails effort to increase Arb accessibility
2010	UROP Presentation on slope measurements at the arb. Looked at 17 trails.
Dedication in 2007	Sue Reichert Discovery Trail made universally accessible
2003	Trail Data collected to identify slope of trails
