

Game UI Developer (Web)

Do you love good design? Can you influence user behaviour with your code?

Fantom has taken collecting online with our sticker album platform; we work with Premiership football clubs, global entertainment brands and leading FMCG companies. We're looking for an experienced UI developer, someone who wants to play at the highest end of design with a stellar portfolio, to help juice our online sticker albums.

We want video cards, battle cards, animated reveals, multi-part collectibles, rewards, and social interaction. We're a game, we're a digital engagement tool, we're browser-based, we're social, and we're mobile. You must be capable of thinking across platform and delivering a compelling experience through HTML, CSS, and JavaScript.

You will be joining our design and development team in our Galway studio. We are a small committed team, passionate about our product and what we do.

This is a full-time permanent position.

Required Skills

- Strong JavaScript skills
- Knowledge of object orientated design and/or JavaScript frameworks
- Experience with CSS2/3 and XHTML/HTML5

Some nice to haves

- Knowledge of UI design
- Experience with any MVC framework (CakePHP, Rails etc.)
- Experience with Node.js
- At least two years programming experience
- Keen interest in game development

To apply send your CV to jobs@fantom.ie

Fantom is an equal opportunities employer and committed to flexible working.
