

HALLOWEEN SCAVENGER GAME

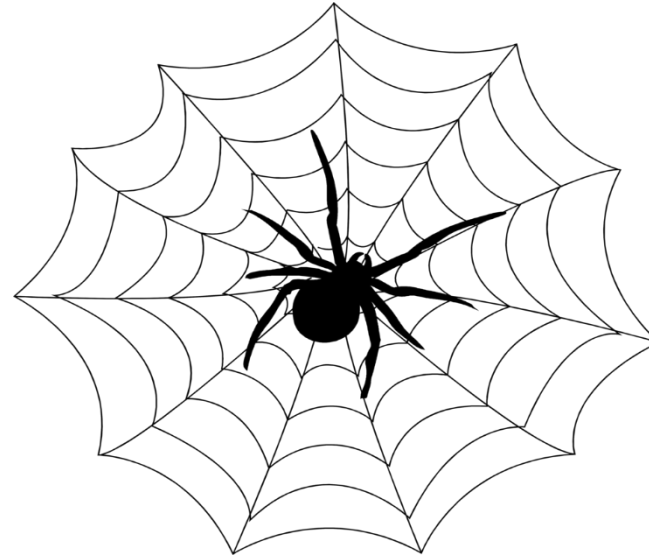

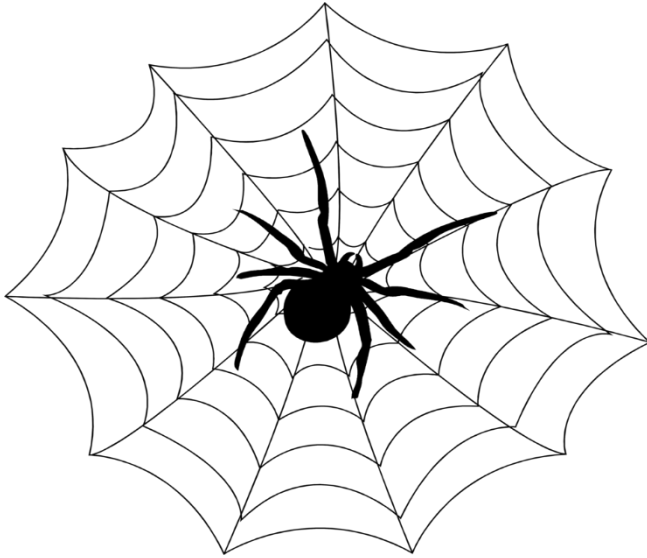

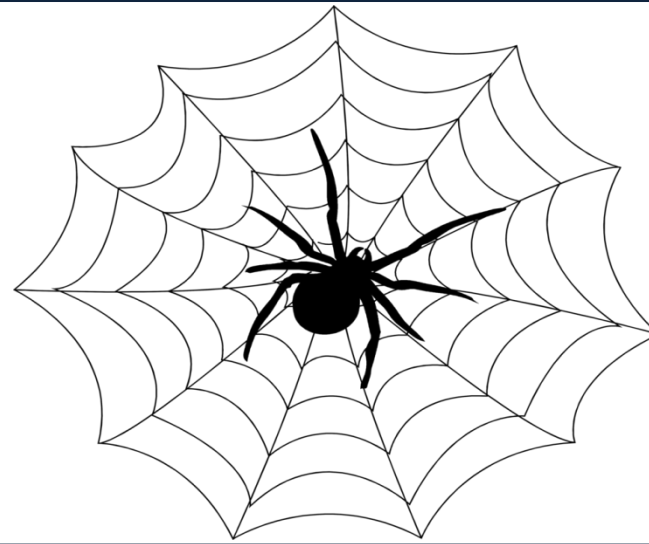

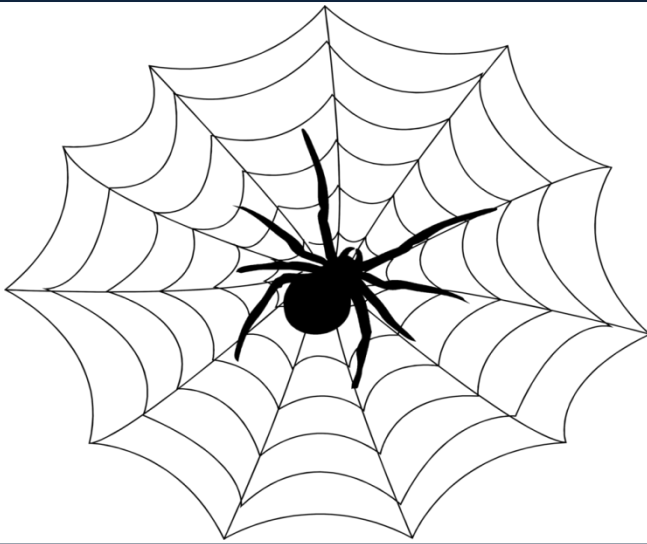

I team	II team
Under a square clock in the hall Look for the ugly, angry troll Don't be afraid of guts and goo For on that key is your next clue	They say that bats come out at night But don't be overcome with fright A bat hangs in the door somewhere And your next clue is hidden there
Jack-o-lanterns light the night Their funny faces shining bright The knife that shaped them lies around And holds your next clue safe and sound	Bones are scattered everywhere Under a window flower somewhere One of those bones holds your next clue Beware the owner watches you
A spider crawls on its web Under the sink where it is spread Entangled in a web of doom Your next clue there must surely loom	Look in the cloakroom, look all around Or your next clue will not be found Beware the woman dressed in black Your clue is hidden in her hat
Where is your next clue you may ask? Your next clue's hidden in a mask On the front porch the mask you'll find But on your way keep watch behind	Don't be afraid, but look for white Not in a box; not on a kite A ghost is hanging in the yard Your next clue's hidden in his garb
Tonight is not all fright and fear A trick or treat is waiting near The canteen holds a sweet surprise Enter the room and take your prize	Halloween night is filled with gloom Here comes a witch on her broom And sits on the old wooden table Look under it if you are able
