## Time to Have Some Comic Fun!!

I want a more silly version explaining the seasons. Here is your job: Create your own comic strip that could explain to a 2nd grader why we have day and night and seasons! You can use any characters you want and any setting you want. Be creative!!

**Idea:** *(how are you going to explain the day and night and seasons to a 2nd grader?)*

**Script:** *(You can layout what your characters will do and say here)*

**Layout:** *(Plan what the rough draft will look like here before drawing the final version on the back)*

**\*\*If you need more comic slides, there are extra on the front table!\*\*\***
