

## 1.19.2 Base Resources Comparison

(multipliers are not taken into consideration)

### NOTES:

-**RED** means less than vanilla

-**GREEN** means more than vanilla

-**YELLOW** means equal

-In brackets () will be shown any additional resources by Prospect for Resources decisions

| RESOURCE                                            | VANILLA | MOD v.19    |
|-----------------------------------------------------|---------|-------------|
| <b>CANADA + LABRADOR (332) + NEWFOUNDLAND (331)</b> |         |             |
| STEEL                                               | 8       | 100 + (90)  |
| ALUMINIUM                                           | 23      | 65          |
| TUNGSTEN                                            | 0       | 4 + (30)    |
| CHROMIUM                                            | 0       | 35 + (57)   |
| OIL                                                 | 1       | 10 + (60)   |
| COAL                                                | 18      | 32 + (20)   |
