Once my friend *felt* ill. He was hot and had a *headache*. We called in a *doctor*. My friend was lucky - it wasn't *the flu*. He caught a *cold*. The doctor gave him some *medicine* and said my friend should stay in bed. Then the doctor told us that we should take special *care* of our health when it is winter. We should keep *fit* : do morning exercises and eat *healthy* food.
