**Stewart is so jealous... And it was a big problem for Erasmus because Stewart was so evil too. One sunny day Stewart called his old friend, a wolf named Shadow. Shadow is a black wolf, he is number one in a wolf pack. So next night Shadow meets his old friend with his pack. In Shadow's pack there are six wolves. The people of Sunnyblood tribe don't know about Shadow and his pack. They don't know about Stewart's very bad idea as well and next week Stewart and Shadow plan how to make their bad idea a reality.**

Next month the wolves steal Sunnyblood people's things - rings, money and other expensive things. Nobody saw them because wolves are quiet, fast and clever. And they steal at night. But they don't steal these things neither for themselves nor for Stewart. When they have got a lot of these expensive things, they go to Erasmus's home at night and hide them there, they steal his boot and in every Sunnyblood tribe house where they steal they make a footprint on the floor. And they bring the boot back to Erasmus. Stewart is so happy. Next day the people of Sunnyblood tribe found out about their stolen things and they discovered Erasmus's bootprints. They went to Erasmus's house and they found their gold... So now Erasmus isn't Santa's best assistant, Santa's best assistant is Stewart again. Erasmus is sad and he feels bad. Everyone hates him and that means no birthday party at all.

Shadow's pack ask for a reward but Stewart doesn't want to give them anything. We know that wolves are clever and Shadow meets Santa, he tells him about Stewart and that everything was Stewart's idea. Santa doesn't want a problem with the wolves, he lets them go. Santa talks to the people of Sunnyblood tribe about Stewart, Stewart's bad idea and Eramus. Eramus is happy because everyone loves him and he is Santa's best assistant again. And people hate Stewart now. Stewart is jealous and angry but he cannot do anything.
