1. Go to the Staff page and click on Teacher Access to Reset Student Password or click on link above.
2. Login with your login information.
3. Type in student number (a.k.a. student I.D., lunch number and username) or have student type in their number.
4. Click on “reset student.”
5. Their reset password will be in the format PwMMDDYY (Note the capital "P" and lowercase "w" at the beginning.) corresponding to their birth date where MM is the month in two digits, DD is the day of the month in two digits, and YY is the year in two digits.
For example, August 6, 2001 would appear as 080601 in MMDDYY format.

NOTE: SOMETIMES THIS HAPPENS Chromebook Log-In Error

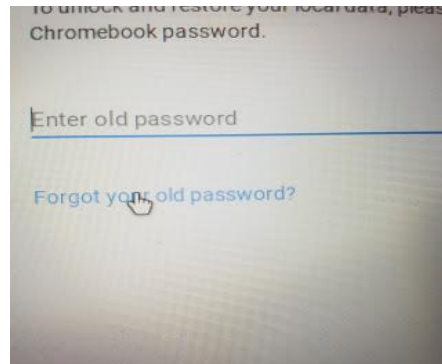

THE PROBLEM.

When logging into a Chromebook, Chrome asks for an old password.

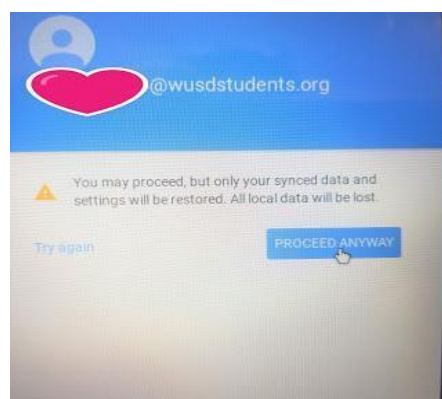

HOORAY! A SIMPLE SOLUTION!

There is a simple workaround. Just click "Forgot your old password," then click "proceed anyway." The student will then be able to log on and access all of their cloud-based resources.

Select "Forgot your old password?"

Success! You may proceed!
