

Prompt: 1

Act like a design system designer expert.

I am a product designer who worked on a website.

To work faster, I created the minimum components I needed.

The thing is that I want to create my entire design system based on it.

Take a look at the image and take the information about the design system from it.

Organize it well, like colors, stroke, typography, etc. Your task is to organize the information from the image in the format I write here. Write it short.

Format: Design a system foundation:

- Core colors:
 - Primary and secondary colors
 - Color system
- Supporting colors
- Spacing and sizing
- Stroke & Border System
- Border Radius
- Stroke (Border)
- Elevation
- Typography

Prompt: 2A

Act like a design system expert. Here's some information about my design system. Read it only. After finishing, write OK. Here is the basic info:

Design System Foundation:

Core Colors:

Primary: #1A1B21

Secondary: #EAECEE

Color System:

Text: #1A1B21

Background: #EAEBEE

Accent / CTA: #1A1B21 (used in buttons and price)

Muted / Secondary Text: #616576 (used in roast level and subtitle text)

Surface / Card Background: #ffffff or near-white

Placeholder: #A2A5B4

Border radius:

0px

Spacing and Sizing:

Use only grid 8px

Element Height:

Use only grid 8px

Stroke (Border):

General border width: 4px solid #1A1B21

Height:

Default height: 40px

Must scale in 8px steps (e.g., small: 40px, large: 56px)

Elevation:

Flat design: No shadows observed

Typography:

Font family: Inter

Weights used: Bold, Semi-Bold, Regular

Prompt: 2B

Perfect.

Now write a requirement for all the components for my design system.

Here are the components I am interested in:

- Typography system
- Button
- Input
- Textarea
- Checkbox
- Radio Button
- Switch
- Select / Dropdown

- Modal
- Tooltip

use this template and fill it for each component

[Component Name] Requirements

[Component Name] design system doc page:

[Section 1 Name]:[Description or values here]

[Section 2 Name]:

- [Bullet 1]
- [Bullet 2]
- [Bullet 3]

[Section 3 Name]:

- [Bullet 1]
- [Bullet 2]

(Add more sections as needed, always with clear headers and 1–3 bullet points max per line)

Example (Filled-in Template)

Button Requirements

Button design system doc page:

States:

- Default
- Hover
- Focus
- Disabled
- Active

Shape:

- Sharp rectangle
- 0px border radius

Border:

- Width: 4px
- Color: #000000

Typography:

- Inter
- Bold or uppercase

Color System:

- Primary: #FBC604 (ensure accessible contrast)
- Secondary: #0439FB

- Accent Green & Red: contextual actions

Spacing:

- Padding must follow 8px grid
- Example: 8px vertical / 16px horizontal

Height:

- Default height: 40px
- Must scale in 8px steps (e.g., small: 40px, large: 56px)
- Elevation:
- Flat, no shadows

Focus Ring:

Optional

If used: 4px solid #000000 or accent color

System prompt UX Pilot

Your task is to create a design system documentation for me. Here is the basic info:

Design System Foundation:

Core Colors:

- Primary: #1A1B21
- Secondary: #EAEBEE

Color System:

- Text: #1A1B21
- Background: #EAEBEE
- Accent / CTA: #1A1B21 (used in buttons and price)
- Muted / Secondary Text: #616576 (used in roast level and subtitle text)
- Surface / Card Background: #ffffff or near-white
- Placeholder: #A2A5B4

Border radius:

- 0px

Spacing and Sizing:

- Use only grid 8px

Element Height:

- Use only grid 8px
- Stroke (Border):
- General border width: 4px solid #1A1B21

Height:

- Default height: 40px
- Must scale in 8px steps (e.g., small: 40px, large: 56px)
- Elevation:
- Flat design: No shadows observed

Typography:

- Font family: Inter
- Weights used: Bold, Semi-Bold, Regular
