

Hi Henri, I have applied what you've told me about the short summary where I put accent on the benefit, here is it.

Let me know if it's good and where can I improve and why, I am focused on getting results!

Countless compliments on the new look of the house – the difference is incredible! - Short Summary where I highlight the benefit.

We chose to change the roof to give our house a new look, and it was an extraordinary decision!

The new roof not only looks fantastic, but it has completely transformed the facade of our house. All the neighbors have complimented the new look of our home, and now we feel proud of how our residence looks.

Moreover, we know that we invested wisely, increasing the long-term value of the house. The team was professional, quick, and left everything clean.

I highly recommend them!

No leaks and mold – a protected house with a new, quickly installed roof! - The summary

Our old roof had leaks in several places, mold was starting to appear, and the walls were beginning to deteriorate due to humidity.

We feared that the problem would become even more serious, as mold and moisture were increasingly visible. We had to do something, so we contacted Mr. Iancu.

The team came quickly, assessed the situation, and provided us with a solution for our problem. They moved very quickly, and it didn't take long.

Now we have a new roof, our house looks much better, and we no longer have water leaks in our home.

Peace of mind for the next 20 years – protection, savings, and a roof that looks impeccable! - Short Summary

We wanted a roof that would provide us with peace of mind for the next 20 years.

The team not only replaced our roof but also clearly explained how proper insulation would help us save on our bills.

Now, our house not only looks better, but we also know that it is protected for many years to come.
