

EDUCATION CONSULTANT

If applying for this role you will be added to our consultant database. As requests are received consultants will be matched with clients per their request and consultant availability.

The Education Consultant will advise educators, parents, and schools on teaching styles and educational strategies that can improve students' learning. This role includes fieldwork with schools, districts, and others that work directly with students and their stakeholders (or families and communities).

The consultant will:

- have a degree in Education
- have experience with facilitating face-to-face and/or virtual professional learning
- have a minimum of 3 to 5 years teaching/coaching experience
- have the ability to travel if needed (dependent on client need)
- be proficient in MS Office Suite, Google Suite, Zoom
- have excellent interpersonal, oral, and written communication skills
- have engaging facilitation skills, professionalism, and creativity
- have current knowledge of state standards
- have knowledge of adult learning theories
- be familiar with the current best practices in education
