

[chuckle // kiss] You've come so far on your journey, omega. You didn't even realize you were scenting the air because alpha has had a bit of scent change, did you?...Do you know why alpha's scent is changing a bit?...Alpha's about to enter her rut. I'm sure you remember what that was like back when you still had your knot. Of course, alpha did what any good leader would do and turned you into an omega, where you properly belong. It took a little bit but you're happier like this, aren't you?...Yeah, that's right. Alpha was just fixing a mistake that nature made, that's all. You're much happier as a mated omega than you ever were as a single alpha, aren't you?...Listen to you, answering so honestly. I remember how you didn't think you would like it at first. I'm willing to bet if the alpha version of yourself met the current version, you would be completely unrecognizable, right?...Happily snuggling with your alpha as you continue to scent my neck. Breathe in as much as you need, bitch. I'm certainly not going to stop you. **[chuckle]** You don't know what that smell is coming from me but you can't get enough of it, can you, omega?

...It's because of the mating mark on your neck. Your body is responding to the fact that I'm in the beginning stages of rut. By tomorrow, I'm going to be completely in it. Do you remember what it was like?...Ruts are not nearly as bad as heats if you recall. Then again, ruts are something of a distant memory for you, omega. You've found your place as the pack's omega, haven't you?...So beloved by the rest, you are cherished just as you should be. I would have only accepted the best for this position and you are certainly it, my omega. **[kiss]** So sweet as you kiss me back, wrapping your arms around me, trying to bring me closer. As if we aren't close like this. **[chuckle into kiss]** The smell of your mate going into rut is starting to have an effect on your body, isn't it?

...You don't have to fight it, bitch. You're responding to the pheromones my body is starting to put out. Trying to find a nearby omega that is fertile enough to breed. I'm sure you don't remember what it was like at this point. It's a bit wild that this was once what you were like. Alpha made the right call with you, omega. This is where you were always meant to be. Underneath me, being a proper omega, pleasing your alpha. **[kissing // shuffle]** So cute as you feel my hand inch between us, sliding between the wet folds of your hole. Are you this wet for me, omega?...Can't help how your body responds to alpha as you inhale more of my pheromones. You feel the adrenaline start to pump through your veins as it gets harder to ignore the throbbing. If I didn't know any better I might think you're in heat. Are you sure that you haven't synced up with me? Seems like your body is trying to show off what a fertile bitch you are and try to get you bred now. Should we try it?

...**[wet noises start]** Ngh, you feel so good around me. Doesn't matter how many times I fuck into you, it always feels as good as the first time. Tight heat engulfing every inch of my shaft as I start to find a pace. Alpha's rut pheromones had gotten to you, didn't they? Making your head feel kind of hazy, you've only been able to think about how good I smell for the past hour, huh?...Typical knotslut. I'm so happy you blossomed into such a regular omega instead of one of those headstrong ones. Not that I wouldn't have had fun breaking that spirit but you're much more fun to play with when you're like this. Just as needy as me, you were waiting for someone to take you down a peg or two, show you what you truthfully are. It feels so good to be reminded of your place. You were never meant to be an alpha, that's far too much responsibility for you. It's better like this, as an omega. All you have to worry about is looking good and taking what you're given. That's how you make alpha happy and you thrive at that, don't you?

...Happily doing what you're told. You were always so naturally submissive, checking in on others, making sure that I was happy, regardless of your status of alpha. It's even more proof that this is where you were always supposed to be. On your back, legs spread far apart, as alpha fucks your needy pussy. So fucking wet for me, your body knows exactly what alpha needs, huh? You're too good for me, omega. Clenching around me to make alpha feel even better. Mnf, so lucky that you're my knotslut. You wouldn't have looked right with any of the other alphas in the pack. I don't think I would be too happy if I had to share you with any of them. You look best on my arm, not theirs. That's my mark you wear proudly on your neck. Alpha's the one who turned you into the bitch you were always meant to be. Alpha freed you, allowed you to embrace your truth. No one else could ever top that, omega. That's why you're mine. You will always come when I call, won't you?

...I love you so much, omega. You're mine forever and always. Can't even imagine doing this with anyone else besides you. Alpha wants you and only you. You're the perfect knotslut. Moaning as you rock yourself against me, your pussy continues to easily take whatever it's given. Begging for more, you sound so fucking good. Keep it up, keep going, my omega. Ngh, you're making alpha so proud with how easily you take it. Making me feel so good without even trying. You want to be bred, don't you?...Your body is already responding to the rut pheromones, your brain is just now catching up. Feeling my cock thrust in and out of your pussy, it's so easy for you to lose your train of thought, to focus on the pleasure starting to build up inside you. That's a good, omega for alpha, just look at you. You don't need to think when alpha's here. Alpha will take care of you, give you what you need, right?

...Yeah, you trust alpha. You're my omega, my mate, my world. I love you more than words can say. Wouldn't trade you for the world. Don't even look at the other omegas when I have the best one waiting for me in bed. Just look at you. Moaning as you feel my cock reach deep inside you, brushing against the special bundle of nerves. You're going to cum on alpha's knot, aren't you? Just like a good bitch should?...Oh I know you are. You're always so good for alpha, never disappoint me. So lucky to call you my bitch. I can't imagine if someone else had gotten to you first. They wouldn't have been able to handle you, omega. You need someone like me, the leader, to take care of you. Going to breed you just, like every omega needs. That's all you really want, isn't it? Ever since you've been bitched, you've felt a need to be bred up. It's part of the instincts that come with being a bitch and accepting your place. You thrive underneath me, taking your fucking like a proper omega. This is where you have always belonged. You never thought about when you were an alpha but now that you are an omega with a mate, the only thing on your mind is being bred, isn't it?

...It's your instincts that make it this way. Your brain responds to the pheromones put out by your mate. Your body knows what it wants, omega. Alpha plans to give it to you. Stranger things have happened than an omega catching outside of heat. Who knows? You might be desperate enough for it that you're going to catch right away. I certainly hope so. I would love to breed you before my rut even starts and outside of your own heat. What a sign that would be, omega. It would solidify that this was the perfect move for you, wouldn't it?...Listen to you, you sound like you're falling apart. Struggling to keep it together, you're so close but it's not enough for you. You need something more, a little extra. The only thing that's going to push you over the edge and make you cum is my knot breeding your pussy, right?

...That's fucking right, bitch. Ngh, look at you. Taking it so fucking well. This is where you were always supposed to be. You weren't ever meant to be an alpha. You weren't meant to be an omega, taking cock, and getting bred. You've never felt better, have you?...Love you so much, omega. You're such a perfect knotslut. Taking everything you're given with a smile on your face, asking for more, practically begging for it. Feeling my knot get bigger inside you, you can't help but rock yourself even faster. Trying to make my knot pop quicker, ngh, that's it. Keep it up, omega. Be a good knotslut, make alpha cum. You can do it. Ngh, so fucking close, omega. Just a bit more. Going to give you what you need, going to breed this tight pussy of yours, fill you until you're bursting with cum. Ngh, fuck. So fucking close, ngh, I can't. Mnf, cum with, omega. Be a good bitch and cum on alpha's kno-[adlib mutual orgasms // sniffing] You smell that?

...[sniff] I certainly do. [chuckle] Not sure if we are even going to need my rut anymore, omega. There's the slightest change to your scent. You've become sweeter smelling. [sniff] Like someone added a little bit of sugar to your scent. That's a good sign. Maybe you've caught right away. We have been trying for the past couple months. It would make sense that your body was just waiting for mine to go into rut so that you could become fertile again. You are chemically bonded to me, your body responds to mine without you even being aware of it. You felt yourself being a bit more distracted today, didn't you?...Because your body is preparing itself in anticipation for my rut. You don't even have to do anything, it's just something that happens in anticipation of my rut. Though that might be changing soon, my pretty bitch. Your body might start shifting you towards pregnancy if I successfully bred you this time. That scent change is still lingering in the air. [chuckle // kiss] What do you think, omega? Do you think you've finally gotten knocked up?

...I have a good feeling about it this time. Of course, we still have my entire rut to get through. I'm sure it'll take a month or two before we actually know for sure. It'll be a fun game, what comes first, a pregnancy test or your heat. [chuckle // kiss] You did so good for me, omega. I'm so proud of you. You took everything you were given so well, even my knot. Can still feel your nursing it, trying to drain every last drop of cum out of me. You love how my knot feels inside you, stretching your pussy out, don't you?...That's my good bitch. You're such a sweet knotslut for alpha. Yes you are. You are the only omega that I want. I am always going to pick you. You're my first choice every single time. I can't imagine my life without you. I wouldn't want it. You're the only person I need, omega. I love you.

[kiss] It's okay if you want to close your eyes. You should rest up while you still can. I'm going to be inside you for at least another thirty minutes until my knot deflates. Considering how feral you were during your heat, I can only imagine my rut is going to be similar since this is my first once since being mated. It'll be okay, omega. We will get through it together. With you by my side, I know I can accomplish anything. You make me so proud everyday. I'm so lucky that you're mine, omega. I wouldn't have wanted anyone else to sink their teeth into you. They wouldn't know how to take care of you. It's not everyday a former alpha becomes such a domesticated omega. So happy to be nursing my knot, you're probably on cloud nine knowing that your scent changed, huh?...It's okay, omega. You can listen to your instincts. I know it's strange to have Omegan instincts when you used to have Alphan but there's nothing wrong with that. You're a mated pack omega, remember?

...It'll be okay, my lovely bitch. You'll see. Alpha will take care of you. I can already imagine it, your belly slowly growing bigger every day. The pack is going to go nuts, knowing that you are with my child. What a privilege this is. I wouldn't have trusted anyone else with a honor this great. You're the only one I can trust, omega. It's why I picked you to be my mate. There's no one who can even compare to you. **[voice starts to fade out as listener falls asleep]** *You're the most amazing person I've ever met. I will love you in this universe and whatever comes afterwards. You're the only want I want, the only one that I will ever need. You're my omega and I'm your alpha. I'll always take care of you. I'll always protect you. You're everything I've always wanted.* **[kiss]** *Omega?...You must have fallen asleep. How cute that my knot soothes you so much. You're fucking perfect, omega. Don't let anyone tell you otherwise.* **[kiss]**
