Mission and Vision - REQUIRED

Mission:

Preparing students for the future.

Vision:

In partnership with the community, the Ririe School District #252 will provide high-quality educational opportunities designed to enable every student to gain knowledge and skills, develop confidence, value lifelong learning, and become responsible, contributing members of our changing world.

Community Involvement in Plan Development - REQUIRED

The Superintendent's Advisory Committee consists of administrators, staff, parents, and students. The committee meets monthly to discuss educational, co-curricular, and extracurricular topics, including the Continuous Improvement Plan (CIP). The committee reviews the CIP in July and makes decisions regarding updates or amendments to the plan to meet the needs of our students. The school board also reviews the plan in July during their yearly planning and goal-setting meeting. The plan is presented during the September school board meeting, and the community has the opportunity for public comments.
