

MICROS - QSR

PUNCHING IN A COMBO

This job aid will cover **Punching in a combo**.

[Lien vers la ressource en français](#)

Swipe the **Teammate** card

From the menu on the left (**purple buttons**),
select the **Combos** button

From the menu in the middle (**orange buttons**),
select the name or number of the combo that
the guest has ordered

The POS will then prompt for the guest to
select choices for their combo

*For example, if the combo has different side
choices, the guest will need to let the
Teammate know their selection*

The POS will create **Placeholders** to enter in
the choices, and will not progress to the pay
screen until all placeholders are filled

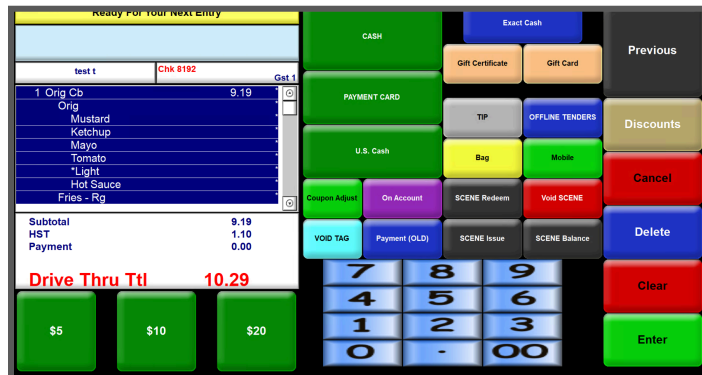

MICROS - QSR

PUNCHING IN A COMBO

Entering in the selections will change the **Placeholders** to the **guest's choices**

Once the order is complete, select the **Pay** button

On the payment screen, select the guest's method of payment

For more information on [Methods of Payment](#), see the job aid
