

Making a Poppy

Make It:

Take some time to think about the materials you have in your own house (or even outside!). What could you gather together to make your very own poppy to display for Anzac Day this weekend? Could you use materials from your recycling bin? Bake a biscuit or cake in the shape of a poppy and decorate it? Draw/paint a poppy on your footpath with sidewalk chalk/paint? Play dough? Random craft materials found in your home?

Write It:

Take time while you are creating your poppy to film yourself if you want so you can watch it while you do your writing. You could even do a screencastify describing your steps (after you have written them) to include with your video on your blog.

Materials Used:

(List the materials you used here)
