Abstract

The abstract contains the research problem, aims of the study, research method, results, and policy recommendation. The abstract should be 150-200 words long and must be in one paragraph.

Keywords: 3-5 Keywords

Abstrak

Abstrak berisi gambaran singkat keseluruhan artikel mengenai permasalahan, tujuan, metode, hasil, dan rekomendasi kebijakan. Jumlah kata dalam abstrak 150-200 kata dan harus dalam satu paragraf.

Kata kunci: 3-5 kata kunci

JEL Classification: F12, F13, F15 (minimal 3)

INTRODUCTION

Describe the background (significance of the research), formulation of the problem/research question, theory and related research, hypothesis (optional), and objectives. The introduction is written without subtitles and tables or figures in it.

METHOD

Contains the time and place of research (optional), type of data, materials/methods of data collection, and analysis methods.

How to write formulas for the equations used, arranged on separate

lines and numbered sequentially in parentheses (*justify*), parallel to the line, and aligned to the right.

$$(x + a)^n = \sum_{k=0}^n \binom{n}{k} x^k a^{n-k} \dots\dots\dots$$

(1)

$$f(x) = a_0 + \sum_{n=1}^{\infty} \left(a_n \cos \frac{n\pi x}{L} + b_n \sin \frac{n\pi x}{L} \right) .$$

(2)

Where X : export value.

A : import value.

RESULTS AND DISCUSSION

In the results and discussion, you are presenting and analyzing research findings. Describe the results obtained

clearly in this section. Writing of results can be added by presenting them in the form of tables or images.

Table 1. Results Obtained

No	Producer	Area (ha)
1.	Government	512,369
2.	Private	41,300

Source: PT. Timah (2015), processed.

Note: Based on a survey June 2015

Avoid repetitive discussions of literature unless it is necessary to confirm research results. All analyzes also need to cite similar research results to strengthen the explanation.

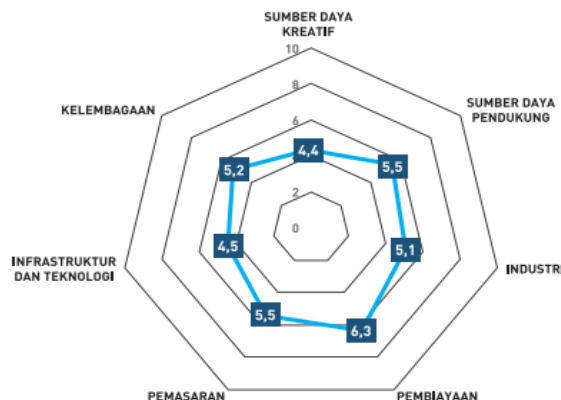

Figure 1. Mapping of Industrial Competitiveness

Source: BPS (2015), processed.

Note: Based on a survey June 2015.

CONCLUSIONS AND POLICY RECOMMENDATIONS

The conclusion must answer the research question/problems and be written concisely. Policy recommendations contain policy

formulations based on research findings.

ACKNOWLEDGMENTS

Thanks are given to those who have supported the preparation of the scientific manuscript.
