Introduction

Welcome to KidVista - Kids Exercises, a simple app designed to provide educational exercises for children through interactive animations. We highly value your privacy and want to be transparent about how we handle it. This Privacy Policy outlines the information we collect, or don't collect, when you use KidVista.

Information We Don't Collect

Since the core functionality of KidVista does not require any user data, we do not collect, store, or share any personal information. Our app does not request any permissions and does not access any data on your device.

How We Use Information

We do not collect or use any information for any purpose, including but not limited to, analytics, advertising, or other functional services, though Google may collect your AD id for ads. The app works solely on your device and does not require an internet connection for its functionality, except for downloading updates from the Google Play Store.

Third-Party Services

Google Ads work with AppLovin service with which user's AD id may be shared if not opted out. All animations and exercises are built-in, and no data is transmitted to or from the device while using KidVista.

Children's Privacy

As this app is intended for children, we take extra caution to ensure that it is compliant with the Children's Online Privacy Protection Act (COPPA). As stated, we do not collect any data, nor do we include any features that could expose children to online risks.

Changes to This Privacy Policy

We may update this Privacy Policy from time to time to reflect changes in our practices or for other operational, legal, or regulatory reasons. The most current version of this policy will be posted on our website and/or within the app.
