  - **Review Previous Sticky Notes Activity**
  - **Link to handout from last meeting [Emerging Trends From Survey and STUCO Samples](#)**
  - **Sample Statements**
    - **Mission - Empowering resilient learners in a safe, inclusive, and engaging environment.**
    - **Vision - Developing confident, well-rounded individuals with a love of learning, prepared to shape a better future.**
- **Good Of The Order**

## **Minutes**

**Meeting began by updating the site council on the current balance in the general tax credit account. We have \$9400 in the account. This was a slight change from the previous month.**

**Next the council received an update on our A banners. This was discussed at a previous meeting, and a majority felt it was a good idea to market our A with banners. Two banners were ordered, with another school account, to be hung in the front and back of the school.**

**The next item is addressing an ongoing issue near the PTO closet area. This is one of the remaining areas that needs beautification. It has been the topic of discussion for several years of site council. The goal for this year was to figure out how much it was going to take to get water to this area. Since the vendor would have to run water linked under concrete, we were given a quote of \$8500. Based on how expensive it is, the Site Council discussed other options that didn't require water. We also discussed a project that does not require money. This item needs further discussion.**

**Next Dr. Michael showed the area dedicated to the Site Council on the school Website. The Site Council was shown where agendas and minutes can be found.**

**We transitioned to finalizing a list of budgets that we would report on at the monthly Site Council meeting. The Site Council discussed which budgets would be helpful for the council and other interested parties to get monthly updates on. This will begin on the April minutes and agenda.**

**We finished the meeting with a brief session on working on the mission and vision statements for IMS. We did a gallery walk and added sticky notes. Dr. Michael will compile using AI to come up with statements and next steps for next meeting.**
