Nuevo Dell XPS 13 7390 2019 10

Dell XPS 13 7390 está cortado de un solo bloque de aluminio monolítico, por lo que tiene una durabilidad extremadamente alta, los lados están galvanizados para un acabado elegante y brillante para evitar rayones de los conectores. El nuevo diseño de bisagra de torsión variable facilita la apertura del producto con una sola mano, lo que significa que su pantalla será más estable incluso cuando esté en movimiento o usando la pantalla táctil.

Simplificación de puertos

Debido a su apariencia delgada y liviana, plegado conveniente, los puertos de diseño se omiten bastante, dejando solo 2 puertos USB y 1 conector para auriculares de 3.5 mm, 1 tarjeta de memoria micro SD.

Dell XPS 13 7390 ha optimizado la función de los puertos de conexión para que la máquina sea ordenada pero aún así satisfaga las necesidades de presentación, transmisión o intercambio de información entre muchos dispositivos de forma abierta.

Acerca de la pantalla

La pantalla del Dell XPS 13 7390 es ideal hasta 13 pulgadas para ofrecer imágenes perfectamente nítidas y vívidas. El dispositivo de gama de colores Dell XPS 13 7390 9 % DCI P3 ofrece colores saturados, mientras que la relación de contraste de 1500:1 permite negros más profundos, la tasa de brillo de la pantalla de 500 Hz mejora la claridad en los niveles de ondas fuertes al aire libre.

Cuando el revestimiento antirreflectante es del 0,65 %, reduce el brillo de la pantalla brillante. Cuenta con la capacidad de gestión de la luz de la pantalla, reduciendo selectivamente la luz azul dañina y dispersándola a través del espectro de luz mientras mantiene la integridad de los colores vivos.

Cámara gran angular nítida

La cámara web del Dell XPS 13 7390 no solo es más pequeña, sino que también se mejoró para que sea más económica, la cámara está montada en el frente en un pequeño bisel, la lente de 4 partes es extremadamente nítida en las áreas del marco al mismo tiempo que está integrada. La tecnología de reducción de ruido de última generación mejora drásticamente la calidad del video, especialmente en condiciones de poca luz.

Procesador de última generación
