

Uh Oh - Liz Cheney Reveals her hand and proves Professor Toto Right

Professor Toto ——— First Harvest Ministries International

1 now how many of you remember back in June when I came on here and told you what was going to happen I said that Liz Cheney was positioning herself for a presidential run now a lot of people laughed at me at that time and they said she can never win the primary and I told you that you're correct unless Donald Trump runs which we know he is but now we know what her plan is even further because that was always a little Cog in the wheel there's no way she could defeat Trump in the primary she could defeat probably anybody else because she would have old money backing her from the grand old party

2 but if Trump runs that would that would knock her out completely well today I'm going to show you the article from her own mouth where she reveals to you what her strategy is hang tight and I'm going to show it to you so that you can know exactly what we told you is what's coming to pass now watch carefully it's from her own mouth this is talking about the January 6 commission and there she is she's doing a live interview when she reveals her plan now I'm going to highlight what I want you to see she said we know members of his family we know his daughter we have testimony that his daughter

3 Ivanka blah blah blah blah but let's go to the last line any man who would watch television as police officers were being beaten as his supporters were invading the capital of the United States is clearly unfit for future office clearly can never be anywhere near the Oval Office again she just revealed to me and to you what the January 6 commission is all about and why her little feminist behind is sitting on that Council now we know now we know the missing piece just came into place I thought January the 6 commission was about finding the truth but now we find out it's about preventing

4 Donald Trump from being able to run for office because their third little impeachment hoax didn't work that was supposed to stop him from running so now we cook up this little commission with the goal of stopping Donald Trump for running for office does everybody see the plan would be a good time for us to sing I told you so right there huh that's her plan ladies and gentlemen she has revealed her hand the secret is out we know exactly what she's doing
