

2021 CAMP WARRIOR KING COVID PROCEDURES

As of April 16th, 2021

Safe. Clean. Fun. Our goal is to ensure the health and well-being of our children at Camp Warrior King.

CWK will follow State of Georgia/CDC guidelines and implement other feasible, practical, and acceptable safety measures for the community we serve and our summer camp style. Keep in mind that our guidelines may change as Georgia/CDC guidelines change in the coming weeks.

Our priorities:

-Provide a clean/sanitized environment where our children can get back to a sense of normalcy, socialization, and fun.

-Help children who attended school in a mostly virtual setting this year become comfortable with policies and procedures they'll possibly face in the Fall.

-Tackle Learning Loss by getting children back in a classroom setting where they're preparing for the next grade.

-Give parents the ability to work with peace of mind. Rest assured, your children are in good hands at Camp Warrior King.

Our Campus:

- Sits on 11.5 acres and has enough space for **every group** to play outside simultaneously. The campus is completely fenced in and includes campus security.
- There are 5 separate buildings including a large gymnasium.
- We have large classrooms to space out campers.
- There's approximately 57 bathroom stalls (combinations of toilets and urinals) on campus.

Camper Cleanliness and Sanitation:

****Our primary sanitizing and cleaning solution has a Human Coronavirus kill time of two minutes.**

- Classrooms will be wiped down and sanitized daily with our COVID-19 killing agent.

- Our janitorial staff will clean camp bathrooms throughout the day.
- Hand sanitizing stations will be strategically located on campus and in each classroom.
- **Water Fountains will remain inoperable until further notice.**
- Although we'll have water stations with cups available, all campers should bring a water bottle to camp.

Camp Group Procedures:

- Group sizes and any changes to group sizes will follow State of Georgia/CDC guidelines.
- Campers and staff should wear face coverings inside with exceptions being at lunch or inside the gymnasium. **Campers will not be encouraged to wear masks outside.**
- There will be an emphasis on outdoor group activities and on-campus events. (example: morning POWWOWs will take place outside or our large gym).
- Each group will have a designated outdoor play area separate from other groups.
- We'll utilize two lunch locations to reduce larger groups: The small cafeteria located in the gymnasium and the student center

Additional precautionary procedures:

- Contactless sign-in/sign-out of campers.
- Sick campers and staff cannot return to camp until they have a negative **COVID-19 Test or a doctor's note clearing them to return.**
- Staff or campers who have knowingly come in contact with someone with COVID will not be allowed to return to camp until their 14 day quarantine period has ended and show proof of a negative covid test.
- **Visiting adults will not be permitted to enter a camp building without a mask and a temperature scan.** Our team will provide a disposable mask for parents who do not have one.

Health Screenings/Designated Sick Room:

- We will conduct temperature screenings upon arriving at camp. Temperatures must remain under 100.4 degrees Fahrenheit to enter camp.
- Designated sick room. All families should designate a person that can pick up their child within an hour's notice of sickness

It is our sincere pleasure to serve your family this summer. Feel free to [contact us](#) with questions.
