RED CARD POLICY

All Red Cards require a mandatory 1 game ban, with additional game bans at the discretion of the league administrators.

- 🟥 If a player is issued a red card, they are ejected from the game (no substitution allowed). If the site manager or referee determines the foul warrants an ejection, the game will not resume until the player has left the facility.

- A mandatory 1 match suspension for a red card will be served immediately in the next scheduled match. Any attempt to bypass this suspension will lead to an additional red card. The player who received the card (or team captain) will identify themselves by name to the referee so the card can be properly assigned and the suspension served, otherwise the team will risk further red cards at the discretion of league management.

- All red cards will be reviewed by league management. If management deems it necessary, a longer suspension will be implemented for any red card.

- Red Card Accumulation: If a player is issued a red card beyond the first (at any time, red cards are cumulative between ALL seasons), they will be subject to a minimum suspension of 3 matches, up to a suspension for the rest of their season, as determined by league management.

- If a player is ever issued a 3rd red card, they will be PERMANENTLY barred from participating in all Soccer in the Streets and Allside events, leagues and tournaments.
