

COVID-19 Updates:

Positive Cases:

At this time this change only applies to individuals who are positive for COVID-19.

Per CDPH's updated guidelines, positive cases can reduce the number of days they must isolate (both staff and students, regardless of vaccination status) from 10 days to 5 days if all the following are TRUE:

- At least 24-hours have passed since the resolution of fever without the use of fever-reducing medications; AND
- They take and provide RCSD with a COVID-19 test (antigen recommended) on or after Day 5 and it comes back **NEGATIVE**; AND
- They will continue to wear a well-fitting mask around others for a total of 10 days, especially in indoor settings.

Types of Tests Accepted: We will accept the at-home test results to allow students to return to school.

Exposed Cases:

- If your child has been exposed to COVID-19 **at school** you will receive notification. The letter has changed and so have the guidelines. You will see there is no longer a modified quarantine. Your child can continue to come to school as long as they are **symptom free**.
- If your child is exposed to a person that has tested positive for COVID-19 (**outside of school**), please call the office and allow us to walk you through the next steps. If the case of COVID-19 is in your household, the best choice is to isolate your child away from that person, if possible. Again, please call the office and we will walk you through the options for return. **THESE HAVE CHANGED!!!**

Symptomatic Students:

Please call the office if your child has any symptoms of illness. Appropriate attendance records are crucial for our school. Calling on behalf of your child is tremendously helpful for the office staff as they are working on many aspects of students' needs. Your cooperation is appreciated.
