

Job advertisement

We are seeking a dynamic **Production Manager** to lead operations in our TV and refrigerator assembly plant. This role is critical in ensuring smooth production processes, maintaining high-quality standards, and driving efficiency across the assembly lines.

Qualification and Experience

1. Bachelor's degree in Engineering, Manufacturing, or Industrial Management.
2. Minimum 1 year experience as a production Manager in appliance or electronics assembly.
3. Experience in TV and refrigerator manufacturing
4. Knowledge of production lines, manufacturing processes, and maintenance systems
5. Ability to manage production planning, productivity, and manpower efficiently
6. Familiarity with ERP systems and production scheduling tools.
7. Manage daily assembly operations for TVs and refrigerators, ensuring production targets are consistently achieved.
8. Familiar with KPI monitoring and production performance reporting.
9. Knowledge of quality control standards and factory operations.
10. Ability to troubleshoot production and technical issues quickly

Skills & Abilities

1. Ability to lead, motivate and manage diverse production teams.
2. Strong verbal and written skills for cross-department coordination.
3. Skilled in handling workforce disputes and operational challenges.

4. Quick, data-driven judgment under pressure.
5. Good English communication
6. Ability to meet production targets

Personal Attributes

1. Precision in monitoring assembly quality and compliance.
2. Analytical mindset for troubleshooting production issues.
3. Flexibility to adjust to new technologies and market demands.
4. Commitment to ethical practices and regulatory compliance.

How to Apply

Interested candidates should send their CV and cover letter to kelecrecruitment@gmail.com by July 09, 2026.
