## INTRODUCTION

Introduction include information about the problem statement, state of the art, theoretical framework, the importance of the study, and previous studies. Use cambria 11pt, single space, no space between paragraph. Use **APA 6<sup>th</sup> edition** to cite and must use reference manager tool (ex. Mendeley, zotero etc.). The manuscript written with 5-20 pages. **At least 10 reference used to present introductions.**

In the second paragraph and so on given 1 cm indention. Second and third headings written with following the format provided.

### Second Level

We don't use numbering in this journal template.

### Third Level

Use maximum 3 level of heading.

## METHODS

In the methods section, explained about subject/participant, procedure of studies, the material/instrument, and data analysis. It can be written by using subheading with 3 level maximum.

**Research Design**

Use description and figure to present research design.  
In the second paragraph and so on given 1 cm indentation. Second and third headings written with following the format provided.

**Participant**

Use description and table to present the detail or characteristic of participants.  
In the second paragraph and so on given 1 cm indentation. Second and third headings written with following the format provided.

**Material**

Present the instrumen including name of instrumen, indicators in table, also description of the instrumen.  
In the second paragraph and so on given 1 cm indentation. Second and third headings written with following the format provided.

**Procedure**

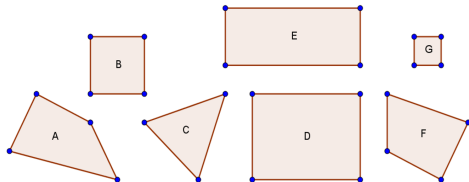

Present step by step of the research.  
In the second paragraph and so on given 1 cm indentation. Second and third headings written with following the format provided.

**Data Analysis**

Present step by step of the data analysis.  
In the second paragraph and so on given 1 cm indentation. Second and third headings written with following the format provided.

**RESULTS**

In this section, explained about results of the present study. Use cambria 11pt, single space, no space between paragraph.  
In the second paragraph and so on given 1 cm indentation. Second and third headings written with following the format provided. The format of mention of images and tables in paragraphs are **Figure 1** and **Table 1** (Bold, start at 1). Figure presented by jpeg or png format (Cambria 10pt).

**FIGURE 1.** *Sentence case, cambria 10 pt italic*

**TABLE 1.** *Sentence case, cambria 10 pt italic*

## DISCUSSION

In this section, discuss about result of present study and compare it to the theory and other studies. Cite as many research articles to produce new theory, method, and others. **Minimum 10 references used to present this section.**

Use equation to present mathematical formulas, symbols etc. Equation can be access on tab insert equation. The example of the equation as follow.

$$(x + a)^n = \sum_{k=0}^n \binom{n}{k} x^k a^{n-k} \quad (x + a)^n = \sum_{k=0}^n \binom{n}{k} x^k a^{n-k} \quad (1)$$

$$A = \pi r^2 \quad A = \pi r^2 \quad (2)$$

## CONCLUSION

This section discus about the conclusion of research result. Conclusion written with suggestion and limitation of the research.

Font cambria 11pt, spasi 1, no space before and after paragraph.

## REFERENCES

The references should be brought together at the end of the article. Authors should check whether every reference in the text appears in the list of references and vice versa. References use at least last 10 years of articles, books or other resources **(at least 15 resources)**. **Minimum 80%** references must from article. References use APA 6<sup>th</sup> edition style. Use **APA 6<sup>th</sup> edition** to cite and must use reference manager tool (ex. Mendeley, zotero etc.). **The reference at least 25 from scientific article.**
