

Homesteading Volunteers welcome to the

Tabi Regenerativo
1,355 hectares Living
Lab in the heart of
Yucatan, Mexico

Our vision for this project is to co-create a sustainable, regenerative, Living-Lab, Research-Center and project Incubator-Hub focused on the heart of our creative nature; to inspire the merging and connecting of people, nature and technology in harmonious integration. As a nature-based, contextual eco-community founded on the principles of restoration, we co-create unity between people and nature by using the latest frameworks and methods to meet the social and environmental needs of the region of Yucatan.

This is the first phase of co-creation with guests, visitors and partners from Yucatan and around the world to create the conditions necessary to enable and foster innovation in

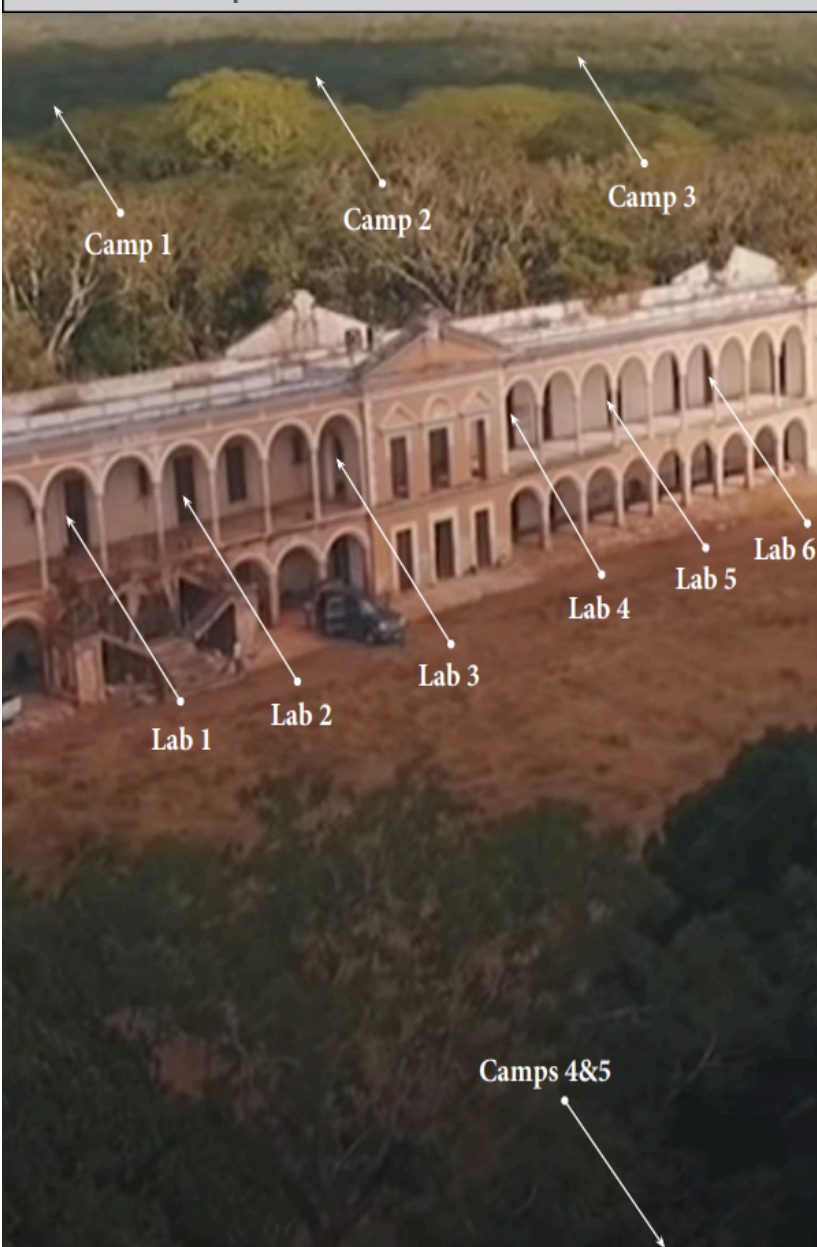

this wonderful, one-of-a-kind laboratory. A home for thought leaders, educators, researchers, scientists, creatives, impact investors, social entrepreneurs, and indigenous and local leaders in an environment of unparalleled beauty.

The Hacienda Living Labs Getting involved

The Hacienda is currently in the Regenesis Phase (or pre-operational phase), the current emergence period of the project. **At this stage, we are only looking for volunteers with specific skills.** In the next phase, the program will be made more open and a proposal system for the Labs will be set up.

Once familiar with the proposal guidelines and the voting system you can join as many Labs as you like. You start off as a visitor with no voting rights and scale your level up through other members vouching and/or Requesting membership. You can become a Lab shareholder by purchasing LabNFTs or Tokens. LabNFTs has multiple benefits for you and the community. It is not only your proof of Partnership but also it is financing the Proposals and the Lab Stewardship Council.

Context led-labs with project incubator hub

1. Seeds Lab
2. Water & Soil Labs
3. Food Labs
4. Music, Sound & Frequency Labs
5. Ecoliteracy & Sensemaking Labs
6. Medicinal Plants & Apothecary Labs
7. Makers Lab
8. Technology Lab
9. Value & Governance Lab
10. Storytelling, Communications & Cosmovision Lab

Water & Soil Lab

Soil water is of vital importance and are the building blocks of our living ecosystem. Healthy soil able to hold water will nurture all life, heal the growth of mycelium, and promote carbon sequestration. The Water & Soil Lab researches and oversees solutions to restore watershed and the soil of the bioregion it belongs to.

Experience: Environmental Soil Science, Water Science & management, Regenerative Agriculture, Microbiology.

Food Lab

The Food Lab is the coming together of all the many parts where we share an intrinsic connection with the ecosystem. Let food be thy medicine and let us share our efforts, bringing us together in nurturing and healing.

Experience: Culinary, Chef, Cooking assistant, Restaurant establishments, Farmers.

Technology Lab

Focused on information technology and its integration with Living Labs. This Lab explores Decentralized Systems, new technologies and bio & cybersecurity. This Lab also helps to educate the community on breakthrough technologies and integration processes.

Experience: Technology, Computer Sciences, Coding, Web3, Cyber Security.

Lab de Valor y Gobernanca

El valor es un consenso de comercio. Nuestro Laboratorio de Valor entiende los principios de las ganancias y pérdidas de capital múltiple, las mediciones y los informes. Esto se hará de una manera integral que tenga en cuenta no sólo las ganancias y pérdidas financieras, sino los múltiples ámbitos en los que el Laboratorio Vivo incide, con total transparencia.

Experiencia: Economía del donut, finanzas regenerativas, negocios éticos, DAO's, contabilidad, gobierno holacrático.

Medicinal Plants and Apothecary Lab

The most profound healers are those of the plant spirits that are seamlessly integrative and bioavailable for every cell of our bodies. The Medicinal Lab is to bring the science and wisdom back to natural medicines.

Experience: Herbalism, Plant Medicines, Medical.

Music, Sound & Frequency Labs

Creating magic through sound exploration and healing energy waves. We can think of ourselves as a human instrument being finely tuned to vibrate at our highest capacity.

Experience: Musicians, Recording Artists, Singers, Songwriters, Producers, Sound engineers, Shamans.

Storytelling, Communications & Cosmovision Lab

Communicating in ways that bring us closer to each other's humanity. This Lab will weave together knowledge wisdom and healing through myth, stories and rituals. Reintroducing into our worldview the diversities of reality.

Experience: Storytelling, Writers, Community Members, Communicators.

Ecoliteracy & Sensemaking Labs

Sense-Making and reframing our logic to fit the fast evolving and uncertain society we live in. All solutions we may arrive to and experience and right or wrong are subject to the sense-making process.

Experience: Philosophers, Deep Thinkers, System Thinkers, Sense Makers.

Makers Lab

The house of hard skills such as carpentry, metal work, hand-spun textile, stonework. At the Makers Lab we have the opportunity to reintroduce those crafts by putting together designers, creators and artists.

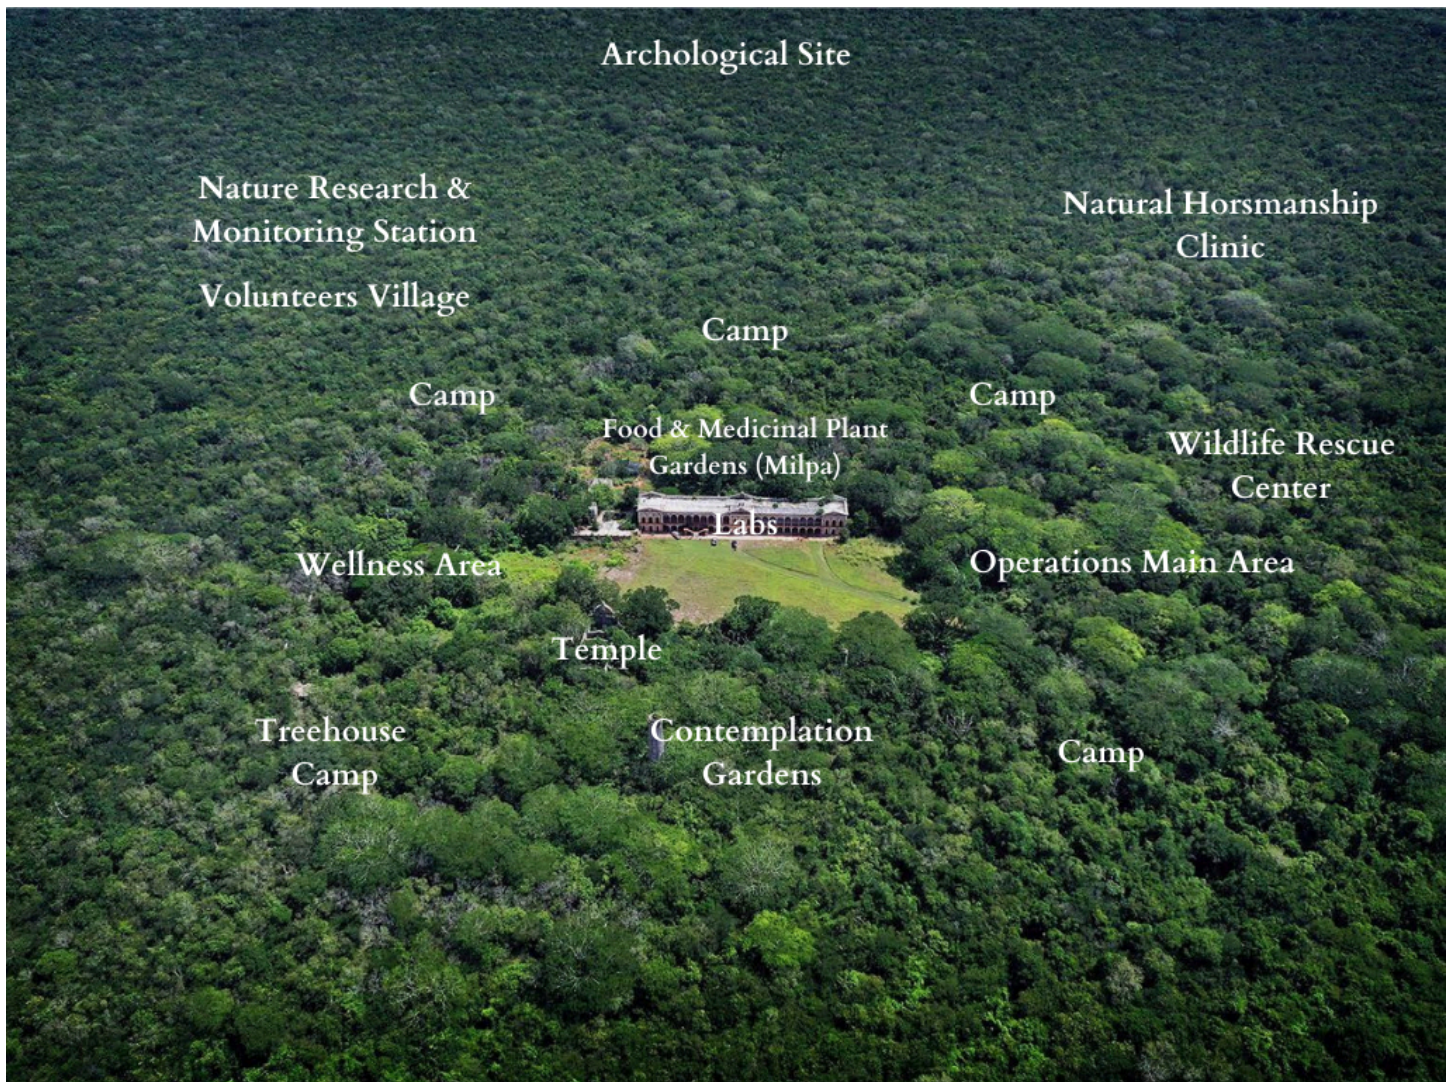

Experience for above and for Creative Artists & Sculptures

Seeds Lab

Seeds are the living potential of birthing life. Under the right environment, they flourish. With much of our biodiversity lost and native crops endangered, it is imperative that we find innovative ways to rediscover these species and empower trade.

Experience in Seed Science and Technology, Crop Science, Agriculture Forestry, Permaculture.

What to expect:

This is a conscious community striving to better ourselves and the earth we inhabit. We ask that you eliminate disposable products and plastic as much as possible when you arrive and take them with you when you leave. To protect the environment, soaps, shampoo and toothpaste must be biodegradable and containers recyclable. We also ask that you avoid processed and non-vegan/vegetarian foods/drinks. And of course, we always express our goodwill to all members of our community; we communicate consciously and work creatively, efficiently and harmoniously with others as best we can. Sacred plants such as Tobacco and others are only welcome in ceremonial settings. No alcohol consumption or other drugs, non-smoker only, no partying.

We are looking for long-term stays of at least two weeks. We will work 5-6 hours per day, with weekends off, depending on the accommodations for each individual. Meals will be provided Monday to Friday, and those who stay and eat on the weekends will be expected to help clean and cook meals. If you offer experience and expertise, there is a possibility to work only 2-3 hours per day or receive NFTs.

Types of help and learning

- **Help needed now:**

- Permaculture, gardening and planting.
- Local Plants knowledge and vegan cooking.
- Building restoration and renovation of historical monuments.
- video and image recording and editing.
- Exploring, clearing paths and identifying spots.
- Contextual and vernacular architecture for pop-up camps.
- Software development, graphic and web design.
- Agile team management and decentralized project management.

Accommodations:

Since this project is in the beginning stages of development it is strongly recommended that you bring a sleeping bag/sheets, and a tent or hammock. Accommodations for a room may not always be available. However, there is an incredible amount of space and opportunity to create any needs we have swiftly including glam tents, yurts, beds, bug protection and more.

Parking for camper vans and personal vehicles is available. For those who need to work remotely, a high-speed Internet connection with excellent connectivity is available.

Places to visit in the area:

We are living in a time of remarkable change that will birth peace and freedom for the welfare of all. The actions we are called to take will bring about truth, transparency and our sovereign birthright of autonomy, self-governance, and wholeness. We are grateful that you have found this opportunity and we wish you prosperity and longevity.

Finally, please feel free to ask any questions or express any concerns you may have and let us know any requirements/restrictions you may need to best serve you.

With Love ❤️
