

Dear Parents,

Chandler's Title 1 Program would like to provide you with a copy of your child's grade level standards that are being taught. The State Board of Education adopted new Indiana Academic Standards for English/Language Arts and Mathematics beginning the 2023 school year. These future focused standards were updated in order to provide a reduction in the overall total amount of standards, create realistic expectations, and to prioritize certain standards as essential. These decisions came about after a research study that defined essential postsecondary skills necessary to promote future success in employment, enrollment, or enlistment leading to service. Prioritized standards for each content area include those designated as essential for mastery by the end of each grade level or course.

All standards and subject areas can be found [here](#).
