In an effort to have students stay socially distant as well as get support we have implemented a reteach/reassessment rotation for the semester. Students will use Tuesday/Thursday to revisit each class. Example Tuesday students return to 1st hour and Thursday return to 2nd hour.

### **PBIS Training:**

On september 30th the high school staff worked with AEA on PBIS training. This will assist us in planning for next year as well as getting staff on the same page. We have as a building done similar work with RAMS UNITED, but this is a chance for all staff to have a similar starting point. This is also the start to our year long training with AEA and will align us with the rest of the district in using the PBIS model.

### **Surgery Update:**

I am progressing well after surgery. Unfortunately, I can't drive yet or sit in a car for more than 10 minutes. I will be able to be back virtually to help out. I want to thank Cory, Jeff, Chad and Devin for their assistance in keeping the high school running and filling in where there is a need. I truly appreciate their selfless actions and support, it has helped me to heal faster and hit the ground running when I return full time.

### **National Merit Semi-Finalist:**

Madeline Becker has been selected as a National Merit Semi Finalist for the 2020 school year. This is a very prestigious honor for Madeline. She will now have the opportunity to be in the running for a finalist spot and \$31 million dollars in scholarships for the 7,600 finalists. Congratulations to Madeline and her family.

### **In Person Students:**

We continue to have students who were SLO elect to return to the high school for in person learning. Staff are working to ensure schedules stay similar and class sizes are stable and appropriate. We continue to review each situation and have not turned anyone away that was in favor of returning to the building.
