Using *Seesaw* for Learning @ Home

The information below applies to any Hanover School Division student who was using Seesaw at school and has now moved to participating in remote learning partially or fully.

Seesaw Family App & *Seesaw Class* App
There are 2 types of Seesaw apps. They are different yet connected.

Seesaw Family is for parents/guardians to use on their personal device to view all posts in their child's journal and see announcements from the teacher anytime.

Seesaw Class is what students use when at school AND when at home for remote learning. The Class app allows students to create items that they add to their student journal, to view lessons, whole class information, feedback from their teachers, and to complete special Seesaw Activities that are assigned by their teachers.

Compatible Devices for *Seesaw Class*
Students can access Seesaw Class by going on the Class app OR using the web-based version at app.seesaw.me. It is available on iOS, Android, Chromebooks, and computers with Chrome/Firefox. A child can access all Seesaw features no matter the device or platform they are using.

How to Sign Into *Seesaw Class* at Home
At home, students sign in either with their individualized Home Learning Code or use their HSD Google sign in. Teachers will let you know what sign in method your child should use from home. *For "Mr. Marten's 5M" Seesaw class, please use _ _ _ _ _ _ _ _ _ _ _ _ _. (See the last page for the Home Learning Code for your child.)*

Multiple Children Using *Seesaw Class* in the Same Home
Each time a different child wants to use Seesaw, they need to Sign Out and the other child has to Sign In with their Home Learning Code or their HSD Google sign in. Unfortunately at this time there is no easier way to toggle between different children's accounts using the Class app.

Quick Tour Around Your Child's Class App

Select Journal to see all items posted by student and teacher. Items are newest to oldest.

Once an item is posted, teacher can LIKE or commENT. Student can commENT. Parent/guardian can commENT or LIKE in Family app.

Class Announcements

⊕ Add

Good morning,
Just sending out a quick note. During our first meeting this morning I had said our meetings were going to be a little shorter than normal, this is because tomorrow we have some new students joining our class 😊 so I will need to help them get on and set up so they can join us tomorrow.

I also will be posting our week outline in a short while .
Thank you for all being so kind and patient 😊

📋 Class Announcements

Some teachers will post class messages in the Inbox under Messages. Students cannot reply to these. Parents/ guardians can privately reply to these in the family app.
