

Old Newton's Vision and Values Day

On Friday 3rd October, Old Newton Primary School had a vision and values day. We started off at the church and Reverend Dan told us a story that included all of our values - peace, love, kindness, patience, faithfulness and joy.

We then came back to school and split into our house groups to go and do activities together as a school community.

In the Robin classroom, we made peg people to remind us we that we are made in the image of God, valued and loved by him. It was really fun because we got to create ourselves out of pegs with all our features, clothes and hair!

Next we went to the Woodpecker classroom and made grass heads using grass seeds, socks and sawdust. We added googly-eyes and a face then watered the grass heads to help them grow. We get to take them home and watch as the grass grows - it will represent us growing in strength and wisdom.

In our third activity we made cd hover crafts and wrote on them “We are filled with the holy spirit living life to the full”. We then attached balloons to them and filled them up with air before letting them race along the table making us think about how God’s spirit inside us can help us do great things too.

Our final activity was making a stained glass window display that would remind us about all three parts of our vision. It had a person looking at their image, a school community growing together frame and a dove for the peace from being filled with the Spirit.

Overall, it was a great day.
