

Shrimp's TCH Import Prices

♡ Shrimp's TCH Imports ♡

5C\$ = \$0.50 USD

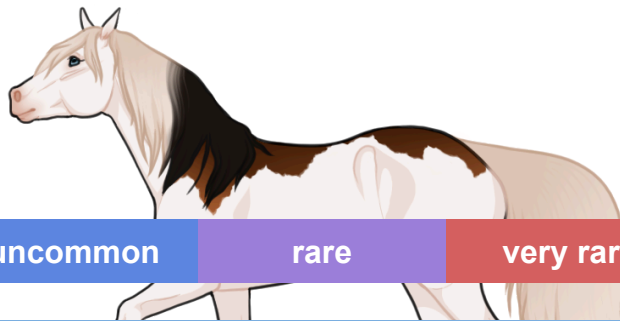

welcome to my import hub! please read everything before ordering. if you have any questions, feel free to dm me on CS or discord, or ping me in the TCH discord!

- all [import rules](#) apply.
- unless mentioned otherwise, forms should be sent in a PM titled "TCH Import" on chicken smoothie.
- refunds can't be requested unless it's been over a month since you ordered. i can decline a refund if i provide proof that the import has been started, but after two months i'll refund regardless of progress.

-
- since wait time varies from days to over a month, please don't order if you aren't okay with the possibility of a longer wait.
 - prices are all in C\$, but i may accept USD if ordering a minimum of \$5 worth in imports. wishlist pets may also be considered, i use the [trade value script](#) and [horror's guide](#) for pet worth.
 - **USD must be discussed on discord.**
 - recessive traits may be bought for half price to make an import a carrier of the trait. these traits will not show, but have a chance to pass in breedings.
(flaxen, pangare, pearl, classic speckled, manchado)
 - prices are always subject to change. i may do giveaways for imports in the TCH discord if you do not have the funds for them!
 - chimerism cannot be ordered from me through imports.
