

# STORYSWAP

The game where you don't have to give up.

This project is a small homage to my very first project.

Shifted Skies.

A flawed storyswap that I made with an old group of friends, and dropped  
and canceled in favor of dustshift.

I want you guys to see my original vision.

Gooner Girls storyswap uses my original Chara - Asriel dynamic, so I'll  
have something original for this, and everything beyond it.

I hope you enjoy this small take concept.

All of the areas are not "shifted", but instead an attempt at being original.

## CHARACTER INFO

Frisk - They look about the same from UT, their hair a bit more messy,  
instead of their striped sweater, they have a black t-shirt with a ghost on it.

Mettaton - A broken TV that barely works, with them being more so the  
"frequency", rather than the object itself, being able to go into any  
electronic device if the frequency is accessed.

sans. - A washed up leader of monsterkind, he tries to pretend it never  
happened but almost everyone remembers. He hardly has a good legacy,  
but he lives every day exactly the same.

Well, until someone new shows up every now and then.

Undyne - A monster who's a bit too into halloween due to being rejected  
from the royal "air" force, donning her armor and pretending to be a  
phantom haunting it to scare off other monsters, though when she spots  
a human, she aims to collect their soul through chase.

-----

### Area 3 - FLOWERDEPTHS

Asgore - Head of the Air Force, and head of the gardening club of the UNDERGROUND.

His casual outfit is his DR outfit with a belt that has basic gardening supplies, a hoe on his back, and a simple gardening hat.  
His armor is based off FIGHT KNIGHT'S armor for the helmet, but being based more on a knight - version of his UT armor.

Undyne - Out of her armor, and is instead wearing a trench coat, being based off the stranger danger ads, and opting to have nothing on for headwear, though she has her UT date hair.
