

Subject: Comeback Stronger

Hello

I noticed your website and really liked the content and the effort you put in from sarcastic comments (they were funny) in the articles to showing real life transformations which were amazing.

I analyzed and read the website and here is an improved version: Appealing and trying to understand the potential clients/customers better.

I can analyze and identify the problem you are having. I'd be happy to give examples on how to appeal directly to the clients' emotions and improve your Landing or Opt In pages just to clear obstacles and give you a tiny savor of what I offer.

If you want to improve and reach out to more clients, send me a quick YES.

Best Regards,
David
