

Opencart gudriem.lv Data Feed for OpenCart 3.x

SHORT DESCRIPTION

This OpenCart data feed module allows you to feed all your products to the Latvian product comparison service Gudriem.lv.

DEMONSTRATION

Demo available:

- Backend:
<https://opencartcart.com/gudriemoc3/admin/index.php?route=extension/feed/gudriem>
 - username: demo
 - password: demo (without update permissions).

INSTALLATION AND SETUP FOR OPENCART 3.X

1. Make backup of store files and database before you install the module (just a healthy habit).
2. Go to admin **Extensions** -> **Extension Installer** and upload file ***gudriem-feed-3x.vx.x.x.ocmod.zip***.
3. Go to admin **Extensions** -> **Modifications** and click "*Refresh*" button.
4. If you want to use cron job then you should copy file ***gudriem.php*** from ***gudriem_cron.zip*** to FTP to your opencart installation folder (It's usually "public_html/")
5. Go to admin **Extensions->Extensions->[Feed]->Gudriem.lv Product Feed** and click "*Install*".
6. Find "Gudriem.lv" and click "Edit".

7. A page will open with a form you need to fill:

© Gudriem.lv Product Feed

Home > text_extension > © Gudriem.lv Product Feed

 Edit Gudriem.lv feed

Current Extension Version:

3.1.3

Status:

Enabled

Latvian language

lv

Russian language

ru-ru
