Confucianism and Ecology

Bibliography by John Berthrong, Emeritus, Boston University
and the Yale Forum on Religion and Ecology

Updated February 15, 2022

There are few works that directly connect ecology and the study of Confucianism. However, there is a growing body of literature that provides insight into the cultural, philosophic, historic, economic, and religious elements of Confucianism that do bear upon any consideration of a modern ecological worldview. This bibliography is divided into two parts: texts specifically related to the topic of Confucianism and ecology and general, supportive reference works (by region) for understanding the larger context of Confucianism and ecology.
