

Dear (name),

Since 1945 the Western allies have been in denial surrounding the state of genocide and totalitarian states growing at unprecedented rates. This requires immediate action, it is simply integral to the values that being together the 5 eyes nations surrounding liberty, human rights and racial equality.

The Chinese Community Party has a totalitarian rule over 1 billion+ people and an economy soon to become the dominant global super power, surpassing the United States of America. This government is militarizing, spreading propaganda and spreading its influence through major world organisations.

Meanwhile, a genocide is taking place- the likes of which have not been seen since 1945. Marginalized groups in China are being systematically concentrated in camps where they are 're-educated', sterilised and have had their organs harvested. This is not hyperbole, this is the hard truth. Millions of Uighar Muslims are being targeted by this regime.

A senior British lawyer has stated that many of the over 1.5 million people in Chinese concentration camps have been murdered for this global organ trade worth billions of dollars. As a politician you must act on Magnitsky act sanctions (like the US has done). (As a corporation must cut dependency on the CCP which causes an immense vulnerability of western freedom in our economy.)

A genocide is happening and those who believe in human liberty and freedom must oppose this tyrannical government. I trust you will do the right thing and use your democratic power to end this tragedy.

Yours sincerely, a concerned citizen.
