

Privacy policy:

- Pixel Clock Widgets & Themes does not collect, save, use, share, or has access to any kind of user personal information and has no mandatory required special permissions.
- The app does not have any additional services that aim to collect users' data for any kind of use, except the native services which are used by default like Google play services.
- The app does not perform any action without the user acceptance such as adding widgets/shortcuts to the home screen.
