

Edina High School Activities Department Coach/Advisor Assessment Form

It is the goal of the Edina High School Activities Department to attract, hire and retain the highest quality coaches and advisors for our students. Beyond knowledge of X's and O's, all Edina head coaches have received training in utilizing transformational coaching approaches that focus on building character and developing athletes as total people throughout the good and adverse times of the season. We continually look at improvement of what we do at EHS.

As with all professionals, feedback is one of the tools that can provide insight into our high school athletic/activities programs and how our students experience them. **It is the purpose of this assessment to provide the activities director and coaches/advisors with specific feedback on aspects of the program that are thriving positively as well as those with opportunity to be revised or improved.**

We are very interested in your input. Thank you in advance for taking a few minutes to complete this survey. Surveys are shared with coaches for improvement and growth.

Basic Information:

1. Please identify yourself:
 - Parent/Guardian
 - Student
2. Name of Athlete/Parent (Optional)
 - Comment box to write in
