## Part 1: Square Remix

Draw an exact **copy** of the square below. Try to make it as close to the original as possible.

|                                                                                                                                                                                                                                                                                                                                                                                |                                                                                             |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------|
| <div data-bbox="253 585 583 894" data-label="Image"> </div> <p><i>Square created by Common Sense Education</i></p>                                                                                                                                                                                                                                                             | <div data-bbox="1057 485 1146 525" data-label="Section-Header"> <h3>Copy</h3> </div>        |
| <p>Take your copied square and <b>transform</b> it in some way.</p> <ul style="list-style-type: none"> <li>You could rotate it, add patterns inside, change its proportions, or add decorative elements.</li> <li>Make it your own while keeping some qualities of the original square.</li> </ul>                                                                             | <div data-bbox="1021 1022 1182 1060" data-label="Section-Header"> <h3>Transform</h3> </div> |
| <p>Take your copied square and <b>combine</b> it in some way.</p> <ul style="list-style-type: none"> <li>You could combine it with another shape like a circle, triangle, or star</li> <li>You could create a pattern using multiple squares together</li> <li>Make it your own by combining different elements while keeping some qualities of the original square</li> </ul> | <div data-bbox="1031 1423 1174 1461" data-label="Section-Header"> <h3>Combine</h3> </div>   |

## Part 2: Poem Remix

# Copy, Transform, & Combine

NAME \_\_\_\_\_

DATE \_\_\_\_\_

Follow the steps to remix a classic nursery rhyme.

|                                                                                                                                                                                                                                                                                                           |                                                     |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------|
| <p><b>Read and write out the original "Twinkle, Twinkle, Little Star" poem to right:</b></p> <p><i>Twinkle, twinkle, little star,<br/>How I wonder what you are!<br/>Up above the world so high,<br/>Like a diamond in the sky.<br/>Twinkle, twinkle, little star,<br/>How I wonder what you are!</i></p> | <p style="text-align: center;"><b>Copy</b></p>      |
| <p>Rewrite the poem by changing the subject (star → something else) and some key words, but keep the same rhythm and structure.</p> <p>For example, you could write about snow, a pet, or your favorite food.</p>                                                                                         | <p style="text-align: center;"><b>Transform</b></p> |
| <p>Take your transformed poem and combine it with another style of writing or music (rap, haiku, commercial jingle, etc.), or something else entirely.</p> <p>Add new verses or elements that blend both styles together.</p>                                                                             | <p style="text-align: center;"><b>Combine</b></p>   |
