

Toto Explain - America Under Attack and their almost finished plan

Shane Vaughn ——— First Harvest Ministries International

1 there is a plan of attack on America by the satanic people that hate this nation there are three areas that they have attacked this is their strategy watch it carefully number one education number two entertainment number three the media number one take control of the Democrat Party they've done it number two take control of federal bureaucracy they've done it number three take control of the Judiciary why do you think they're talking about stacking the court the Supreme Court because this is the last part of their plan they had a three-part plan the first two has been accomplished the last

2 the third one was stopped by Donald Trump God raised him up to stop them taking the Judiciary the last Bastion of Hope in America let me tell you how successful they have been today let's start with education today liberal professors education on college campuses outnumber conservatives are you ready are you really ready 17 to 1.

3 for every conservative Professor there are 17 liberal professors in 1968 do you know what the ratio was liberal to conservative 2.7 conservatives to one liberal to that today 17 liberals to one conservative what was their plan takeover education they've done it check what was their next plan remember I told you education entertainment and media let's talk about entertainment how successful they've been the media including social media is so dominated by these people that in 2020 90 of all donations went to the Democrat Party check check education media entertainment ladies and gentlemen when I

4 look at these numbers I thank the almighty God that our founding fathers created in their Divine insight the Electoral College without the Electoral College we would be a people without hope why do you think they want the electoral college to be taken away our founder saw this day coming the Democrat party has been leaning towards socialism since the days of Woodrow Wilson but it was the election of Barack Obama that was the Catalyst into fully transforming the party the Democrat your grandfather's Democratic party into the American Marxist Socialist Party dead set on achieving one party rule

5 in this nation Obama was determined to fill the Judiciary with left-wing judges and he succeeded let me give you the raw numbers there are 667 district court judges throughout the United States ain't that interesting 667 interesting Obama and Biden to date have appointed 371 of those judges with 63 vacancies that Biden will feel before the end of his term that gives us 434 liberal judges we're losing our judiciary we've lost our entertainment we've lost our media our education the only thing we still have protecting us is a is a balanced judiciary now out of those 667 judges 4 34 two-thirds

6 are liberals now let's talk about the Circuit Court of Appeals half of those have been appointed by Republicans and then we have six of the nine Supreme Court Justices so let me show you the numbers the district courts two-thirds liberal but when people appeal they they reach the last echelons of conservative rule they reached the Appellate Court which in that Court the Republicans have appointed uh half of the a circuit court is conservative half two-thirds of the district is liberal half and half on the uh circuit courts with the Supreme Court is the last thing we hold this is why 2024 means

7 everything I want these numbers to sink in you have three judiciaries District circuit Supreme

we no longer have the districts we barely have a fair voice in the circuit and the last thing we have you see hanging by thread is the Supreme Court after that the conservative voice in this nation has no more friends which is why the Judiciary is the last Bastion of the preservation of constitutional government and Liberty and that's why it's the target of these American marxists called Democrats based on historical averages if Biden or any Democrat wins in 2024 they will appoint a hundred and fifty

8 district court judges giving them full control of our district federal courts 2024 means everything we lose it all or we gain it all in 2024 this is not one of those elections we can lose this is not one of those elections where you can just decide well I don't like that about Trump get over it there's more at stake here than you realize if Biden wins and he will not any Democrat wins 30 to 40 percent of the Circuit Court of Appeal judges they'll appoint another 30 to 40.

9 so remember the Circuit Court were half and half now there'll be two-thirds of the Circuit Court liberal the complete District Court will be liberal the Circuit Court two-thirds that will result and 595 out of the district court judges 126 out of 180 circuit courts liberal transforming the entire Judiciary into a de facto enforcement arm of the Democrat party now let's go to the Supreme Court Clarence Thomas Samuel Alito will be 80 years old by 2028 opening up the possibility of swinging the Supreme Court to the radical left 2024.

10 means everything I told you tonight this was not hyperbole I told you I would bring you the raw numbers I told you tonight was not a hoorah just so you know we got to win we got to win no no we gotta win we've got to get focused on the fight if you're discouraged tonight get over it if you're worried get over it if you're I don't know what's going to happen I'm fixing to tell you what's going to happen what is happening to Donald Trump right now with these indictments is to stop him from stopping them because what's happening to Trump right now will not be limited to a political opponent very

11 soon what you're seeing happen to Trump will soon happen to preachers teachers parents Donald Trump is the Prototype for what they want to do to you so when Trump says they're not after me he's telling you the truth it's not me that they want it's not him that they want they want him out of the way so that they can get to you because of what they're doing to him will work when they own all the courts sir man of God that preaches against homosexuality that preaches on traditional marriage traditional families you sir are next it will be directed virtually to everyone that opposes the policies

12 and the dictates of one party rule the desperate indictments of Donald Trump must be a wake-up call to every American in particular Republican independent voters these actions underscore the reality that is no longer hyperbole to say that the 2024 election is the most important one since 1860.

13 do you know what was happening in 1860 we nearly lost a nation this nation had two opposing forces in 1860. the north the South there was such dichotomous anger towards one another there was no middle of the road anymore in 1860. it was choose you this day mothers chose against their sons and fathers against us it was that bad one man rose up and saved the nation welcome back to 1860.

14 this election is the beginning or it is the end the future of this nation hangs in the balance if the Judiciary is held captive by these Marxist Democrats there is no turning back for America If Abraham Lincoln had not been elected America would have crumbled to two sides brothers and sisters 2024 means everything it's time to get into battle it's time to quit worrying and start working it's time to quit crying and start carrying the load it's time to quit doubting and start believing and you say to me Professor Toto if those numbers are correct and they are what hope do we have I would like

15 to leave you with that hope tonight can I do that can I show you why we're going to win and

why God's going to give us one more chance to save America may I just change hats for a moment would you mind if I change hats to Pastor Vaughn I'd like to bring you to the only truth in the whole world it's the word of God Proverbs 21 and verse 1.

16 the king's mind or the president's mind is in the hand of Yahweh and just like the rivers of water Yahweh turns the king's mind wherever he wants it to go what hope do we have in a god that hears the prayers of his people and that responds to the prayers of his people he said if my People Israel which are called by my name Yahweh will if they will believe for America I will respond to their beliefs don't you ever diminish the power of Prayer don't you ever diminish the power of your God that can send an angel to a Ballot Box and literally reach inside and change anything that God wants changed

17 believe for it execute the word when you hear the word execute it for three years I've stood before you and executed the word I've executed it to to my enemies I've executed it to Democrats and my own family I've stood on the word and the word is that something was wrong in 2020 we all know it something's going to be right 20 24 because 2024 my friend is the end or it's the beginning thank you for watching
