**Please Report any issues with the bot @luisarlz**

## Update Log:

1.0 - Bot is now online!

1.1 - The bot will now make list based on discord server mottos instead of discord user

1.2 - Finally fixed the bot going offline so often on its own! 14/05/2023

1.3 - Added the Reactions Function. By voting the hand emoji below the list you will be able to add yourself to the list with a timer of 1 hour. ONLY add yourself if you actually went to the maze and were missed in the list.

1.4 - Lists are now created inside beautiful embeds!

1.5 - You may now remove your own name from list by reacting X

## What is this bot?

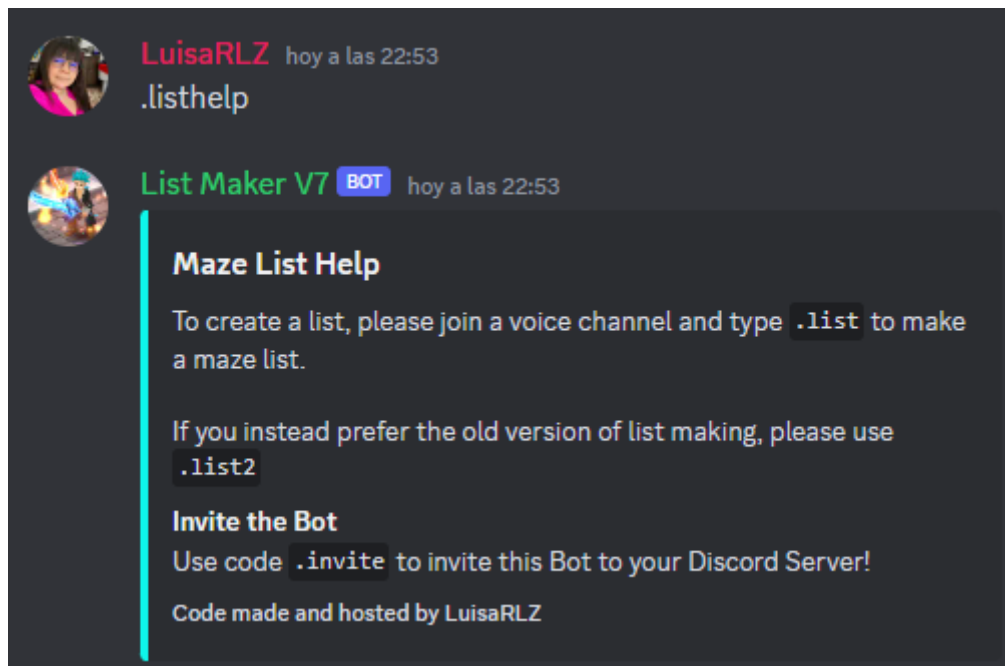

It is a bot that makes a list of the members connected to the voice channel you're currently in. It is useful to save time after mazes. Just type `.list` and all work will be done in less than a second!

**IMPORTANT NOTE!!** This bot does not store points, attendances or anything of that sort. It is an extremely basic bot that just creates lists and that is it.

## How to use:

1. Invite bot by [Clicking Here](#) and accept. You may only invite it to servers where you have inviting permissions.
2. Give the bot permissions to see channels and post in channels (this usually works by just giving the bot any discord role for normal users)
3. Type `.listhelp` to see available commands (you may skip this step)
4. Join the voice channel you want to make a list of
5. type `.list` in any channel the bot can interact with, then press enter
6. Copy and paste the list generated by the bot. You may then edit anything you need then post it yourself. Enjoy!
7. In the case you aren't in a voice channel, bot will request you to join a voice channel first then do steps 5 and 6

## Available Commands:

### **.list**

Creates a list of the current Voice Channel and automatically posts it in the selected Discord Channel.

### **.list2**

Old version of `.list` which does not allow for removal and adding of names.

### **.invite**

Creates an invitation link to invite this bot.
