

Compliance Management as a Service (CMaaSSM)

Affordably Maintain your ISO or DoD CMMC Compliance

Compliance Management as a Service (CMaaSSM) is a patent pending service that CPI Systems has introduced to the market. CPI Systems goal is to make it easy for you to maintain **Continuous Process Improvement** after certification. This includes complete maintenance of the Business Management System for continued compliance & certification and a monthly subscription with system review and continuous improvement.

Services Included

Monthly Compliance Review, Documentation & Systems Revisions

CPI Systems takes away the significant workload of maintaining ISO and CMMC Certifications. CPI Systems can serve as your compliance partner and therefore cannot serve as an Assessor or Auditor. However, as an ISO and CMMC Registered Provider Organization (**RPO**), CPI Systems works within a network of ISO External Auditors and CMMC 3rd Party Assessor Organizations (**C3Pos**). With years of experience and connections built both in ISO and the Defense Industry Base (**DIB**), CPI Systems will match the best third party assessor/provider to your organization when it comes time to certify again.

Maintaining monthly compliance includes regular updates to your documentation and access to professionals with in-depth knowledge. This keeps certification on-track so there should be no surprises for audits. You can confidently continue to pursue DoD contracts and proudly maintain your ISO status.

Microsoft GC5TM & Microsoft AzureTM for Storing, Processing and Transmitting your CUI

The standards for maintaining cybersecurity around Controlled Unclassified Information (**CUI**) are usually beyond what small and medium sized businesses have in-house capabilities for. [Microsoft has built a secure digital ecosystem](#) which follows some ISO and all CMMC regulations for the tens of thousands of government related contractors. CPI Systems will work within these MicrosoftTM government approved digital platforms for effective and secure storage of all CUI and CMMC related documentation.

Maintain Compliance for \$35 per User per Month

CPI Systems has built a **Simple, Effective, and Affordable** way to maintain your compliance from month to month. Whether it is one user or fifty, CPI Systems eliminates the need for you to hire in-house or to spend time on regulation, when you need to spend time on what you do best in business.
