

# Create 50 Clickbank Accounts Safely

---

Did you know that every time you access ClickBank, their system collects over 200 data points about your device? From your Chrome version to your installed font list, even how you move your mouse.

This is why simply logging out and logging into another account is COMPLETELY USELESS for protecting accounts. Your Digital Fingerprint remains identical, and ClickBank can easily link all accounts together.

## Fatal Mistakes in Multi-Accounting

From real-world experience with thousands of marketers in MMO Marketing, here are the most common mistakes:

### **\*\*Mistake #1: Believing VPN/Proxy is Enough\*\***

ClickBank doesn't just check IP addresses. They analyze your entire browser fingerprint. VPN only changes IP, but Canvas fingerprint, WebGL, Timezone remain identical.

### **\*\*Mistake #2: Deleting Cookies and Cache\*\***

This method has been obsolete since 2015. Current platforms use stateless fingerprinting - they don't need cookies to track you.

### **\*\*Mistake #3: Using Incognito Mode\*\***

Incognito only deletes local history, but doesn't change any fingerprints. ClickBank still sees you exactly as before.

### **\*\*Mistake #4: Using Chrome Profiles\*\***

Chrome profiles only separate cookies and extensions, but all profiles still share the same base browser fingerprint.

## Best Practices For MMO Marketing

After 5 years of testing and optimization, here's the checklist to achieve 95%+ success rate with ClickBank:

### Essential Checklist:

#### **\*\*Proxy Quality\*\*:**

Residential proxies (not datacenter)

Sticky session (keep IP for 24h+)

Location matches target audience

Separate IP for each account

**\*\*Fingerprint Consistency\*\***:

Don't change fingerprint after creation

Timezone matches IP location

Language settings consistent

Canvas/WebGL settings stable

**\*\*Account Aging\*\***:

Week 1: Profile setup, basic browsing

Week 2: Platform registration, profile completion

Week 3: Organic activity (view, like, comment)

Week 4: Start campaigns/postings

**\*\*Behavioral Patterns\*\***:

Mimic human activity (not bot-like)

Varied login times

Different session durations

Mix of activities (not just post/sell)

**\*\*Payment Isolation\*\***:

Different payment methods per account

Separate billing addresses

Use virtual cards if possible

Don't reuse CVV codes

**\*\*Warning\*\***: ClickBank is especially strict about mass actions. Always add delays and randomization.

### **Troubleshooting Common Issues**

**\*\*Issue 1: {platform} still detects accounts\*\***

Check proxy quality (datacenter proxies easy to detect)

Ensure fingerprint consistency (don't change settings)

Age accounts properly before activity

Verify timezone matches IP location

**\*\*Issue 2: Performance lag when opening multiple profiles\*\***

Multilogin requires decent hardware:

Minimum: 8GB RAM, quad-core CPU

Recommended: 16GB+ RAM, octa-core CPU

Close unused profiles

Use profile groups and launch by batches

**\*\*Issue 3: Payment issues with code SAAS50\*\***

Ensure entering correct code: SAAS50 (all caps)

Check that you're new customer (code for new users only)

Contact support if issue persists

**\*\*Issue 4: Selenium/Puppeteer won't connect\*\***

Verify Multilogin API enabled in settings

Check port configuration (default: 35000)

Update Selenium/Puppeteer to latest version

Check firewall settings

### **Final Words: The Choice of Winners**

In MMO Marketing, there are 2 types of people:

**\*\*Type 1\*\***: Those still struggling with 1-2 accounts, afraid of bans, don't dare to scale, stuck at \$500-1000/month forever.

**\*\*Type 2\*\***: Those who invest in proper tools, run 50-100 accounts, scale easily, earn \$10K-50K+/month.

**\*\*The difference?\*\*\*** Type 2 understands that business expenses are necessary. \$200-400/month for Multilogin plus proxies isn't a cost - it's an INVESTMENT in infrastructure.

### **Think About It:**

A large agency willingly pays \$5,000-10,000/month for Multilogin Enterprise

Media buyers spend \$1,000+/month on tools

Serious marketers never cheap out on infrastructure

**\*\*If you're serious about ClickBank and MMO Marketing\*\*, the decision should be obvious.**

**Multilogin.com**

**\*\*P.S.\*\*:** Within 30 days, you'll look back and realize this was one of the best decisions you made for your business. Or you'll still be stuck in the same place, complaining about bans and limits.

Choice is yours. Winners act fast.
