August Transportation Report

- We started off the year 2 ½ route drivers short. We hired one person pending certification that should test out this week.
- Our annual required State Bus Inspection is scheduled to begin September 15, 2026.
- We sent new Bus #3 to Pro Fleet in Conway to repair the damage to the step well. Due to the fact that Bus #3 is new and the way that the doors operate on the new buses I chose to have the step well replaced instead of repaired.
