SHORT ANSWER QUESTIONS

**Please provide concise but comprehensive answers.*

1. What specific skills, technical competencies, or past experiences make you qualified for your chosen committee?

Passion, purpose, and eloquence fused with the power to actualize goals is an essential aspect of Student Council leadership. As evidence for my candidacy, I have consistently and vocally led as a highly motivated individual, excelling at the tasks of many. I have the capability of rallying the masses toward a cause, and my results-driven focus supports my candidacy for committee staff. The zeal and discipline I have in the form of my energy and focus supports my capacity to both start an initiative and finish it. My qualifications originate from an assortment of technical skills and an extensive network of interpersonal skills acquired from my unwavering participation in school and community events. I have an established reputation of being a confident advocate for the needs of the student body.

2. How do you plan to manage your time and maintain academic excellence while fulfilling your responsibilities as a committee staff member?

You have to master the prioritization of balance to maintain excellent academics alongside a laborious Student Council position. I have the ability to prioritize tasks thanks to the experience of completing my first year as a college student while being a varsity athlete and an active student. I have the ability to balance both critical and non-critical responsibilities and maintain excellent academics alongside my club responsibilities. This has given me the time management and balance of a student athlete.
