on our new parent education YouTube Channel

The Good, The Bad, and The AI

What Parents Need to Know to Keep Children Safe and Productive in the Age of Artificial Intelligence

Artificial intelligence (AI) is rapidly changing the world around us, impacting how we live, work, and learn. As parents, it's essential to understand this powerful technology and its potential effects on our children. That's why Buckeye Elementary School District is excited to announce a new online parent education series, "The Good, The Bad, and The AI!"

This series of 15-45 minute videos will be released bi-weekly, beginning on Wednesday, February 19th, on the Buckeye Elementary School District YouTube channel. [This allows you to learn about AI at your own pace, from the comfort of your phone, home, or both!](#)

Why should parents tune in?

AI is no longer a futuristic fantasy; it's here, and it's changing everything. This series is designed to help you, as parents, understand this powerful technology and harness its potential to support your child's education. Most importantly, it will help you understand how to keep your child safe in this new AI-powered world. We'll explore the exciting possibilities AI offers while also addressing important safety considerations, all without having to leave your home or work!

- **Video 1: A Parent's Basic Understanding of AI (debuting February 19th!)**
 - Introduction to Artificial Intelligence and Large Language Models
 - Preview potential risks of unsupervised AI use by children (e.g., exposure to inappropriate content, misinformation, privacy concerns).

Continued on next page

- **Video 2: Using AI to Provide Studying Support at Home**
 - How to use common and free AI tools to support learning efforts away from school
 - Learn about LLM-powered tools suitable for K-8 students like Khan Academy Kids (ages 2-8), Khanmigo (ages 8+, parent sign-up required), Gemini, and ChatGPT).

- **Video 3: AI in Action: Safety and Ethics First!**
 - The dangers of AI for children
 - Ethical use of AI for kids and parents

- **Video 4: Study Helpers - AI Support for Core Subjects**
 - Supporting Your Child's Learning in Math, Reading, Writing, and Science
 - Exploring the top free AI tools to support learning in math, reading, writing, and science.

- **Video 5: Safely Spark Creativity - AI as a Creative Partner for Kids**
 - Fostering Imagination and Problem-Solving with Artificial Intelligence
 - Learn how AI is used in creative fields (e.g., art, music, writing) and discuss the potential of AI to augment human creativity.
 - Learn about free AI tools for creative expression (e.g., collaborative storytelling with LLMs, generating music with AI).

- **Video 6: Safely Stay Ahead of the AI Curve**
 - Emerging trends in AI (e.g., personalized learning, AI tutors) and their potential impact on education and parenting.
 - How to stay updated on AI safety and privacy.
 - How to talk to your children about AI's role in their lives and the future.

Don't miss out on this opportunity to learn how to navigate the exciting world of AI with your child.

Mark your calendars for the premiere on Wednesday, February 19th, and subscribe to the Buckeye Elementary School District YouTube parent education channel today!
